Letter No. 2582—320, dated 28th October 1900, from the Comptroller to the Government of Mysore.

With reference to Government Proceedings No. 950-89—Mis. A. 457-92, dated 21st July 1900, *re* Europe payments on account of stores, &c., required by heads of offices and the Public Works Department being made by means of drafts obtained direct from the Bank by officers concerned, I have the honor to state that it has been found that bills for the exact amount to be paid for London drafts cannot be calculated before the drafts are obtained. I beg, therefore, to suggest in modification of the above order, that heads of offices and the Public Works Department may be instructed to obtain the London drafts required by them through this office and not direct.

2. The actual cost of the drafts, which will be intimated by the Bank, will be adjusted in communication with the officers concerned in the accounts of the State Huzur Treasury.

No. 6430-69—M. 1398, dated Bangalore, 7th November 1900.

Order thereon—Communicated to Deputy Commissioners of Districts and Heads of Departments, for information and guidance in continuation of Government Proceedings No. 950-89—Mis. F. 457-92, dated 21st July 1900.

Letter No. 3906, dated 25th July 1899, from the Chief Engineer of Mysore.

Under para 2 (3) of Government (Public Works) Proceedings No. 2802—33, dated 23rd July 1884, the collection of rent for occupancy of all Government buildings (except travellers' bungalows) vests with the Public Works Department, and Government (General) Proceedings, Camp No. 576—84, dated 19th May 1887, directed that, in case of default of Government officials (Civil), Deputy Commissioners of districts should assist in the recovery of the amount due by deducting the same from the pay of the officials concerned.

2. I submit the enclosed letter No. 3472, dated 19th instant, from the Examiner, Public Works Accounts, bringing to notice that, under the present arrangement, there is delay and inconvenience in recovering rent from Civil employès occupying Government buildings, and requesting sanction to the introduction of the rule in the Public Works Code, Volume II, Chapter II, paras 53-55 under which each Executive Engineer will send a monthly statement of rent due, to the Treasury Officer, who will recover and credit same to the Public Works Department in the exchange accounts.

3. The long list of arrears of rent due by Civil officials, appended to the Examiner's letter, shows that the Government Order of 19th May 1887, referred to in para 1 of this letter, has not been properly enforced by the Deputy Commissioners, and the result in consequence has been a great delay and inconvenience, to say nothing of much unnecessary correspondence on the subject.

4. In these circumstances, I have the honor to request that you will be so good as to obtain Government sanction to the introduction of the Code rule quoted, in supersession of the Government Order of 19th May 1887, which so far has failed to have the effect of preventing Civil Officers from falling into arrears with their rents.

No. 6687-726—MIS. 1442, DATED BANGALORE, 14TH NOVEMBER 1900.

ORDER THEREON—Sanction is accorded to the introduction, in supersession of the rules contained in Government Proceedings No. 576—G. 84, dated 19th May 1887, of the Public Works Code Rules, (paras 53—55 of Volume II, Public Works Code), regarding the recovery of rent from Civil Officers occupying Government buildings. The rules now sanctioned are printed as an appendix to this Order.

2. It appears, from the list forming an enclosure to the letter from the Examiner, Public Works Accounts, to the Chief Examiner, that in some cases the default in payment of rent was made so long ago as 1894, and that in certain individual cases, the amounts due are larger. The Government view with displeasure the neglect on the part of public servants to pay the dues of Government, and trust that the Deputy Commissioners in the Treasury Department will have the arrears recovered under the new rules as speedily as possible.

L. ANANTASAMI RAO, *Offg. Secy. to Govt., Gen. & Rev. Depts.*

To—The Chief Engineer of Mysore, (returning the enclosures of his letter).
The Heads of Departments.
The Deputy Commissioners of Districts.

APPENDIX.

Public Works Department Code, Volume II—1894.

* * * *

53. The recovery of rents from Officers in Civil employ occupying public buildings will be made in the following manner:—

54. The Executive Engineer will fill up Form No. 44 B. at the close of each month, and forward it in duplicate to the Treasury Officer concerned for recovery of the rent due.

55. The Treasury Officer, on recovery of the amounts due, will complete the entries in the form and return one copy duly signed to the Executive Engineer, by whom it will be forwarded to Examiner with the monthly accounts. The recoveries will be credited to the Examiner by the Comptroller through the exchange accounts, and by him brought on as Revenue of the Public Works Department in his office accounts.

Government Proceedings No. 6722-30—Mis. 1986, dated 12th December 1899, communicating the report of the Superintendent, Government Stationery, bringing to notice the indent from Deputy Commissioners for an unduly large number of Raiyat Patta Books and Demand Notice forms; and requesting the Deputy Commissioners of Districts to report as to the data on which their requisitions for forms for 1899-1900 were based, and prescribing a form for such indents.

Also the following—

(1) Letter No 413, dated 23rd December 1899, from the Deputy Commissioner, Kadur district, stating that the requisitions were based on the indents from the Amildars of taluks, and that endeavours will be made in future to exercise scrutiny in sending indents.

(2) Letter No. 529, dated 26th December 1899, from the Deputy Commissioner, Tumkur, stating that as the Patta Books are sold to persons requiring them, at the rate of three pies each, there seems to be no need for curtailing the indent for this form, and adding that care will be taken that a large stock does not accumulate, &c.

(3) Letter No. 746, dated 12th February 1900, from the Deputy Commissioner, Bangalore, stating that the indent was prepared upon the actual consumption at the taluk offices during the past year.

(4) Letter No. 2721—552, dated 12th February 1900, from the Deputy Commissioner, Kolar, stating that the indent for forms for his district was based on the actual wants of the district and the stock on hand.

(5) Letter No. 709—591, dated 14th February 1900, from the Deputy Commissioner, Shimoga, stating that annual indents for forms were hitherto being prepared on the approximate calculation on quantities supplied to taluks in the year previous to which the indents related, and adding that arrangements have been made for the preparation of a consolidated indent with the due regard to the quantity supplied and stock on hand.

(6) Letter No. 791, dated 22nd February 1900, from the Deputy Commissioner, Mysore, stating that indents are prepared on the average quantity of the forms actually supplied during the previous three years to the Amildars as per their requisitions, plus 4 per cent on the average quantity for wear and tear.

(7) Letter No. 617, dated 10th March 1900, from the Deputy Commissioner, Hassan, stating that hitherto the requisitions for forms were being based by taking into consideration the actual consumption and demands from the taluks and not upon any other data, and that, in future, the instructions conveyed in the Proceedings above cited will be adhered to.

(8) Letter No. 710—676, dated 7th April 1900, from the Deputy Commissioner, Chitaldrug, stating that the indent for 1899-1900 was not based upon any very accurate data but on a rough estimate of the requirements for the district, &c.

No. 7005-13—Mis. 1501, dated Bangalore, 19th November 1900.

Letter No. 387, dated 7th November 1900, from the Superintendent, Government Press.

Referring to my No. 408, dated 18th November 1899, and Government Proceedings No. 6358-97—Mis. 1891, dated 2nd December 1899, I have the honor to report that the Press has not been favored with any old blank papers, obsolete forms or used covers, from any Department or office, except in two or three instances. Just now the Press is using large quantities of paper for proofs, and any consignment of papers, unless for Departmental purposes, would be appreciated. I understand that all Head-quarter Officers receive daily, number of official correspondence, the covers of which might easily be collected by the mutchi or a peon (told off for that purpose) and sent to the Press weekly. It would only be necessary to snip one end of the cover by a pair of scissors, the same put aside daily, and the lot tied into a bundle at the end of the week and sent to Press. In my own office we collect 30 to 40 covers in this way daily. The result of co-operation on the part of Head-quarter Officers alone would result, during each month, in a considerable saving.

No. 7265-304—MIS. 1550, DATED BANGALORE, 24TH NOVEMBER 1900.

ORDER THEREON—The foregoing letter is communicated to all Heads of Departments and Deputy Commissioners and their attention drawn to the instructions laid down in Government Proceedings No. 6358-97—Mis. 1891, dated 2nd December 1899, for compliance.

The following Notification No. 2615, dated the 26th October 1900, issued by the Government of India, Home Department, under the Epidemic Diseases Act, 1897, with regard to the pilgrimage to the Hedjaz during the ensuing season, is re-published for general information :—

In the Notification of the Government of India in the Home Department, No. 2936, dated the 20th October 1899, it was ordered, under the powers conferred by Section 2, Sub-Section (1), of the Epidemic Diseases Act (III of 1897), that the pilgrimage to the Hedjaz during the season of 1900 might be permitted, except in the case of persons residing in the Bombay Presidency (including Sind), the Presidency of Madras, the Mysore and Hyderabad States, Coorg, Calcutta and the Saran district of Behar, the Nagpur Division of the Central Provinces and the Hoshiarpur district of the Punjab, subject to certain precautions and restrictions which were imposed in view of the strong opinions of all European Governments, including Turkey, regarding the danger of plague being communicated to Europe, and in view of the danger of plague being spread by intending pilgrims from infected to non-infected portions of India.

Plague is unfortunately still widely prevalent in the Bombay Presidency and the Mysore State. The disease continues to exist in the Salem district of the Madras Presidency. Imported cases are of somewhat frequent occurrence in the districts

of the Madras Presidency adjoining the Mysore State. Calcutta and few districts in Bengal continue to be infected. The outbreak in the Jullundur and Hoshiarpur districts of the Punjab ceased in June, but three suspicious cases of a very mild type have recently been reported from the former district. The remaining Provinces in British India are entirely free from plague. The Hyderabad State has also ceased to be infected, no cases having been reported, except from the Lingsugur district, since the month of May; while in this district itself no case is known to have occurred since the beginning of October.

The alarm experienced by European Governments, including Turkey, regarding the danger of plague being imported to Europe is in no measure abated, and during the past season Indian pilgrims were again subject, on and after arrival at Turkish Ports, to much vexatious restriction and consequent hardship. The Government of India do not think it necessary to prohibit the pilgrimage from the uninfected portions of India during the ensuing season, but they consider it essential that careful precautions should be observed similar to those which were enforced during the past season. The port of Karachi is now no longer infected, and with a view to mitigating the inconvenience to pilgrims from parts of the north of India of the long journey to Chittagong, the Government of India have determined to permit embarkation this year at Karachi. Should, however, a serious outbreak occur there before, or during the course of, the ensuing season, it will probably be necessary to cancel this permission and to direct that pilgrims, who had proposed to go from Karachi, should go from some other port.

The Governor General in Council is pleased to cancel the order contained in the Notification of the Government of India in the Home Department, No. 2036, dated the 20th October 1899.

The Governor General in Council is further pleased to direct that, until further orders, no person resident permanently or temporarily in the Presidency of Bombay (excluding the whole of Sind), the Madras Presidency, the Mysore State, Coorg, the Jullundur district of the Punjab and Bengal, excepting the Chitagong Division, shall be permitted to embark from any port in India with the object of making a pilgrimage to Mecca.

The Governor General in Council is further pleased to direct as follows:—

(1) That no person shall be permitted to embark with the object of making a pilgrimage to Mecca, except at the port of Karachi in Sind and Chitagong in the Lower Provinces of Bengal, and unless and until such person has been kept under observation in a place appointed for the purpose until such time as the Medical Officer in charge shall be satisfied that all risk of such person conveying the infection of plague has been completely abated, and unless such person is conveyed from the place of observation to the place of embarkation under the charge of an officer appointed for the purpose.

(2) That no passage tickets for the Hedjaz shall be sold except at the places appointed for the detention of intending pilgrims under observation.

The Government of India think it necessary to repeat the warning given last year that, although they have decided that the pilgrimage to the Hedjaz may be permitted subject to the safeguards enumerated above, they are nevertheless convinced that intending pilgrims will be well advised in deferring their purpose until another season, in view specially of the stringent quarantine rules imposed by the Turkish Government, and of the inconvenience and harassment to which it is likely they will be subjected on arriving in Arabia.

READ—

Letter No, 1181, dated Bangalore, 10th October 1900, from the Plague Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to forward herewith copy of letter No. 262 P., dated 29th September 1900, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, together with copy of its enclosure from Major Smyth, I. M. S., Officiating Senior Surgeon and Sanitary Commissioner, with my remarks in the margin, regarding the general sanitary condition of the Mysore City.

No. 262 P., dated 29th September 1900, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, to the Plague Commissioner in Mysore, Bangalore.

I have the honor to forward herewith a brief report on the sanitation of Mysore City drawn up by Major Smyth, M. D., whilst officiating for me. I may add that I concur in the main with the recommendations made by Major Smyth.

My views on disinfection are quite in accordance with his, and, as you are aware, as far back as 1898, before plague broke out, I recommended that we should proclaim a *gehad* against rats in the Bangalore City; and a reward was offered for each rat with the result that some 20,000 were killed.

I firmly believe that the disease is sown broadcast by rats, and if we could exterminate them it would go a long way to stamp out the disease, but it is easier to prescribe the remedy than to carry it out as the population of rats is not counted in thousands but in millions.

From the Officiating Senior Surgeon and Sanitary Commissioner with the Government of Mysore, to the Plague Commissioner in Mysore, Bangalore.

I have the honor to inform you that on the 29th and 30th ultimo, I inspected the general sanitary condition of Mysore City. I was accompanied by the Chief Plague Officer, the Vice-President of the Municipality and Mr. Kodandapani, now Health Officer to the City.

2. It is not necessary for me to enter into detail on the sanitary defects of the City, more especially as I am informed you have only recently yourself inspected parts of it. It will suffice to say that every known sanitary law is not only disregarded, but trampled under foot by the unfortunate inhabitants of this City. I may refer briefly to two or three points.

(*a*) The house-holders are largely free-holders, and have let and sub-let and built and inbuilt to such an extent that the light and air of heaven no longer reach their habitation, and *drainage* has become an impossibility.

(*b*) "The rights of property" are so jealously guarded that the Municipal authority dare not enter what a casual observer would call an "open space" to clean it, but must prosecute the owner to get him to do so. Consequently, as the whole town would have to be run into Court, cases are comparatively seldom brought to Court at all, and the filth steadily accumulates.

REMARKS OF THE PLAGUE COMMISSIONER.

"The Officiating Senior Surgeon has apparently overlooked the provisions of the Municipal Regulations (Sections 133 and 134) under which Municipal Officers have power not only to abate nuisance but also to get the house-owner punished for keeping his premises in a filthy condition. The Epidemic Diseases Regulations which are still in force have armed the Municipal authorities with even greater powers."

(*c*) The houses are built so close together that, by mutual consent or mutual dissent, windows are not placed in the walls lest neighbours should peep through them. Foul air and damp are therefore put up with to secure privacy.

(*d*) Nothing could be less agricultural-like than the denizens of these houses; yet we are told they are agriculturists and therefore have cattle: and having no place better to put them, they put them in their dwelling houses—and what cattle! poor skeletons with their staring coats up to their fetlocks in sewage—not mere cow-dung and urine, remember, but black fœted sewage, one of the worst cases of this kind, by the way, being within 50 yards of the New Palace where a plague case occurred the day before my visit.

(e) A man's family increases, and instead of sending out the new comers to fresh fields and pastures new, he cuts up his house into various dens to share it with his progeny. If he had kicked them out in true Anglo-Saxon fashion, they might have contributed something towards their livelihood, but as they are thus provided with food and shelter, indifferent though they be, they are content to stay there and vegetate, and become mere polluters of the earth; mere mills, so to speak, for converting harmless food-stuffs into noxious excrement. These "wasters" present a problem very difficult of solution. Plague may help us in the solution of it. They not only waste good food that should have gone to the workers, but they foul the soil and render it unfit for human habitation; they poison the air of heaven, and render the earth a happy hunting ground for pathogenic microbes. Plague will kill many of them; will frighten many of them away; and will stimulate the Government to enact edicts to prevent a recurrence of or continuance of such a state of affairs.

An ideal measure would be one which, while it provided these wasters with house-room of a healthy description, would also compel them to work for their livelihood.

"If they will not work neither shall they eat."

But at present I fear this is too high an ideal.

* * * * *

3. In seeking a remedy for our present troubles we must consider what measures, are best adapted for grappling with these immediately, and are best adapted to prevent a recurrence of them. And 1st *immediate measures.*—Plague is with us, we must prevent its spread, and relieve those who are the actual victims of it. These two endeavours should run simultaneously. The City should be divided into districts with a medical man in each, who would be kept informed of plague cases as they arise. If not moribund, the patients should be sent to camp. If moribund, they should be allowed to die where they are. The inhabitants of the house should be removed to a new house or hut, not necessarily to a camp, but to a house provided for them in the suburbs which they must understand is to be their permanent residence till they can house themselves in a manner satisfactory to the Sanitary authority, or leave the town altogether. If their old house is a mud wall house of the usual type it should be destroyed, and compensation paid them, which should amount to the actual value of the holding, minus the cost of the new hut provided for them.

If the old house is a pucka house, capable of disinfection, it may be disinfected and after a month or more the inhabitants may be allowed to return to it; this to be considered a satisfactory re-housing of themselves. In all cases of house-destruction, the removal of *debris* should be complete, and the site kept clean thereafter by the Sanitary Department. For this purpose "rights of property" should be ignored, and the Sanitary Department should step in and keep the place clean instead of wasting time and money and nursing filth by a petty prosecution at Court. When many houses in the same vicinity have been cleared out, the Sanitary authority should seize the area, clear it, surround it by a fence, and plant it with grass and useful trees. Making big roads through such places is waste of material; more roads are not wanted in Mysore, only lanes wide enough for two conservancy carts to pass. It is important that if compensation is to be paid it should be done without delay and not as is the case with some Wesleyan and, I believe, Catholic Christians in Mysore, delay over it for weeks or never pay it at all. This annoys the people unnecessarily. The poor people have got quite sufficient unavoidable annoyances, without this added one. But not less important, or hardly less, is the adoption of measures for the prevention of the spread of the disease. The disease is spread in the rough by man, but it is sown broadcast by rats; so it is of the first importance to at once wage war on the rats by poison, by trap, and by placing a reward on their heads. This procedure is regarded by some as puerile, but Manson, who is the highest living epidemiologist and one of the acutest thinkers of the age is convinced that rats are at the bottom of all widespread epidemics of plague. On such high authority then, it seems to me little less than criminal not to take the step I have recommended, especially as it is popular and exceedingly cheap, not costing a fraction of the all but useless disinfecting processes that are so much in vogue. In regard to disinfection, it would be a subject of amusement, if the matter were not so serious, to see a lot of coolies splashing perchloride of mercury over the walls and floor of a dungeon built of cracked mud walls and riddled with the burrows of rats and insects—cracks and burrows which cannot be reached unless the hut is dipped bodily into the solution, and left there to soak. I repeat it, that disinfection, as ordinarily carried out, is a waste of material; and it is worse—it is a snare it is a *make-believe* that an infected house has thereby been rendered safe, which it has not, and people accordingly go back to it and get the disease afresh, and the microbe is left there to hibernate and break out again at the next meteorologically favorable opportunity. All that can be done that is worth doing in regard to these huts is to sweep them and burn the refuse and then, best of all, destroy them; or, if that is not possible, evacuate them indefinitely and leave them open to sun and air. I say indefinitely for sun at any rate can never enter thousands of them—so their destruction cannot be insisted

REMARKS OF THE PLAGUE COMMISSIONER.

"The Senior Surgeon and Sanitary Commissioner may be requested to favor me with a brief note of instructions as to the best way of destroying rats. These will be translated and distributed to the Cities of Bangalore and Mysore and to the districts."

on too strongly if the disease is to be wiped out. The disease is there—rubbed into them so to speak—and the proof of it is that if the people continue to live in them, they will probably suffer, whereas, if they go on to new soil they very rarely suffer. The more one thinks over this disinfection the more absolutely futile does it appear. It is superficial at the best, that is even on the places it actually effects, and then it becomes rapidly inert, and in a few hours or days is re-infected either by being overrun with rats or by the outgrowth of germs from spots that have escaped disinfection.

The position of disinfection is therefore this :—

If there are smooth pucka walls and floor, the house can probably be disinfected. If not, it cannot be disinfected, and to try to do so is to waste time and money, and to offer the people a false security.

Along with rat-killing, the disinfection of suitable houses and the destruction of houses unsuitable for disinfection, ordinary scavenging must be undertaken with no sparing hand. The numbers of the scavengers ought to be increased by at least one quarter, and the carts ought to be doubled or trebbled or more, all of which together with the overseers should be under the immediate authority of the Health Officer to fine appoint or dismiss and pay them their wages If his authority in these matters is not absolute he is paralysed at the very outset for real good. If he is constantly interfered with ; if his verdicts in regard to his subordinates are as likely as not to be upset by a Superior Officer, I declare it would be better not to appoint a Health Officer at all Make him responsible, place the power in his hands, and, if it is in him, he will succeed, if it is not in him, he will have to be re-placed by a man of different calibre. In Mysore, the Health Officer has a veritable mountain of difficulty to contend, against, and should not be worried by petty official interferences, by time-wasters, whatever their rank or status All this does not mean that everything he does shall not be done by the sanction of the President, but what I wish to emphasise is that unless the matter is of very serious moment, even if the Health Officer is technically wrong, nothing should be said or done either to harass him or reduce his status in the eyes of those whom he must, so to speak drive, and nothing above all that will waste his all too valuable time. He must not be a puppet. He ought to be as independent as a priest. Nor does this mean that the Health Officer is to be devoid of tact and discretion He should recollect that one of his *great functions is to teach and to* persuade the people—in addition to cleaning the City. I hope in time his teaching may take the concrete form of lectures to the people. But there is time enough for this—after he gets the reins securely in his hand He should not lose his temper either, over the quibbling-time, wasting lucubrations of Municipal Councillors He must be content to listen to an enormous deal more than he may choose to take notice of. His aim must be to look out upon his dealings with them in the light of a psychological problem to enable him to get his way by making them believe it is their way! Ancillary to scavenging, additional surface drains may be required here and there, where there is obvious stagnation and where such drains can readily be conducted to the mains. Pits must still be retained in many of the house enclosures to receive sullage. Fœces should on no account be thrown into these pits, but be universally removed by the pail system. I am of opinion that "drainage," on any large scale would mean a waste of money till the congested parts of the City are opened out and the houses more or less re-arranged

REMARKS OF THE PLAGUE COMMISSIONER

"The number of scavengers has since been increased by 80 persons and hand carts by 40

It will be a long time before the present Health Officer can be entrusted with the supervision of the conservancy and sanitary establishments He is now to this work and for the proper discharge of the duties proposed to be assigned to him, we want, especially in Mysore, a man who knows the people and commands their confidence. The present Vice-President is an Officer of great experience and has considerable influence with the people of Mysore He may continue for the present to supervise conservancy and general measures of sanitation. It is proposed to appoint an Officer of active habits to assist him in his duties."

REMARKS OF THE PLAGUE COMMISSIONER.

"The Vice President reports that up to 6th October 1900 262 privy pits have been filled up and 97 latrine with seats constructed"

REMARKS OF THE PLAGUE COMMISSIONER

"The Government have already done something in this direction They sanctioned a loan of Rs 1 17 000, so far back as April 1898, for opening out certain congested parts of the City and providing them with drains Subsequently, at the Plague Commissioner's instance steps were taken for the removal of huts from over-crowded parts of Bestepete, Kumbargate and Cumbern in Lashkar Mohalla and from parts of Mandi Mohalla and Moshigate Altogether 803 houses have been removed from the congested parts of the City at a cost of Rs 52,602. The remarks of the Plague Commissioner made in his Inspection Notes of the 10th and 11th October 1898 are quoted below —

Observe that the houses inhabited by Bestha "ers, Kumbars and Cumbars in Lashkar Mohalla "are low, ill ventilated and over crowded that in "the interests of the health of the City the entire "quarter inhabited by these three classes should be "removed from the present locality and built else "where, the cost being met from the one lakh and "seventeen thousand rupees sanctioned by Govern-"ment.

"Inspected the Durbin bungalow site in Lashkar Mohalla and ordered that the vacant site situated to the south of the road running parallel to the rampart of the old Erangere Fort be allotted for building sites for the Kumbars to be removed from the Kumbargeri in Lashkar Mohalla.

"Inspected the site originally set apart for the Sitavilas tope near the Hardwicke College in Chamaraj Mohalla and ordered that the site lying to the east of the Dewan Road be allotted for building sites to the Besthers to be removed from the Besthergere in Lashkar Mohalla.

"Further ordered that building sites be allotted to the Ganigars on the present wood-yard when acquired by the Municipality from the Forest Department, and early steps to be taken to obtain this land.

REMARKS OF THE PLAGUE COMMISSIONER.

"In connection with the prevention of the spread of plague in the villages, the villagers are quite alive to the benefits of evacuation and camp out on the slightest alarm of the appearance of plague in their midst. They have also a more effective system of keeping out infection from their villages than Government can ever hope to organize or work for them."

The next question is the prevention of the spread of the disease in the villages. Here again, if evacuation cannot be effected, the destruction of vermin is the beginning and the end. But whether evacuated or not, the vermin should still be destroyed as they are sure to carry the contagion from infected houses to those which had not yet been infected before the general evacuation. Villagers should insist on new arrivals from infected places living outside their villages for a week or so, and during that time sunning their belongings as much as possible, and thoroughly cleansing their own persons. General cleanliness must of course not be neglected. Plague contagion must always die out rapidly in small villages. They are not sufficiently filth-sodden to retain it alive for long. It may of course first kill off the people and the vermin, if they remain there long enough, but thereafter it must soon itself disappear and the village become once more as secure as ever from its ravages, till a fresh case is imported and the contagion once more disseminated by the vermin which will have come back with the people.

No. Pg. 573-83, DATED BANGALORE, 21ST NOVEMBER 1900.

ORDER THEREON.—In modification of Order No. Pg. 340-2, dated the 10th October 1900, Government are pleased to direct that the words following the sentence "But at present I fear this is too high an ideal" down to the word "potent" be omitted in para 2, clause (*e*), of Major Smyth's report on the sanitation of the Mysore City, and that the rest of the report with the marginal remarks of the Plague Commissioner, be communicated to all Deputy Commissioners of Districts and Presidents of Municipal and Local Fund Boards, for information, with special reference to the points indicated below:—

(1) The necessity for a strict observance of sanitary laws, especially with regard to the overcrowding of habitations and their closely packed situations in narrow areas.

(2) The advisibility of enforcing the Municipal Rules and Regulations, to a greater extent than at present to prevent recurrence of nuisances and filthy conditions generally, which are reported to be on the increase.

(3) Provision, gradually, of model dwelling houses, with means of ventilation, drainage, &c., for the poorer classes, so as to induce others to follow their example.

(4) Removal of the inmates of infected houses to new houses or huts to be provided for them in the suburbs.

(5) Destruction of old and worthless houses.

(6) Proper regulation of disinfection, which should be limited to houses capable of disinfection, *i. e.*, with smooth pukka walls and floors.

(7) Complete removal of *debris*.
(8) Fencing of cleared out areas which should be plaated up.
(9) Prompt payment of compensation for houses demolished on sanitary grounds.
(10) The importance of setting on foot a crusade on rats, in all possible ways by poison, by trap, and by placing a reward on their heads, as they are at the bottom of all wide spread epidemics of plague.
(11) Increased attention to ordinary scavenging.
(12) Provision of additional surface drains, where required.
(13) Destruction of vermin and other preventive measures in villages.

Letter No. 1843, dated the 2nd November 1900, from the Plague Commissioner in Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

I have the honor to forward herewith, for sanction, the budget estimate of the Plague Department for the month of November 1900, amounting to Rs. 29,861-9-0. The amount sanctioned for expenditure during the month of October 1900 is Rs. 42,397-15-10 as shown in the margin.

Amount as per budget sanctioned in Government Progs. No. 372-3, dated 1-th October 1900.	30,397	15	10
Additional grant for the Mysore City sanctioned in Government Proceedings No. Pg. 429-30, dated 27th October 1900 ...	12,000	0	0
Total ...	42,397	15	10

Deducting as usual, the sum of *Rs. 3,797-8-0, being the pay of officers and subordinates of the Revenue and Medical Departments employed on plague duty, the estimated expenditure for November 1900 will be Rs. 26,044-1-0 or Rs. 16,353-14-10, less than the amount sanctioned for expenditure in October 1900.

*As per statement appended.

2. Letter No. 1914, dated the 6th November 1900, from the same officer.

I have the honor to forward, for favor of sanction, a revised budget estimate of the Plague Department for the Hassan district for the month of November 1900. The increase of Rs. 310 over the amount provided for the Hassan district in the Provincial budget for November 1900, forwarded with my letter No. 1843, dated 2nd November 1900, is due to the outbreak of plague at Doddahalli, Hole-Narsipur taluk, and to the occurrence of imported cases at Hassan and Hole-Narsipur. I request that these figures may be adopted in the budget for November 1900, which is before the Government.

No. Pg. 634-5, DATED BANGALORE, 21ST NOVEMBER 1900.

ORDER THEREON—The budget estimates of the Plague Department for November 1900, providing for an expenditure of Rs. 26,374-1-0, is sanctioned, exclusive of the pay of officers and subordinates of the Revenue and Medical Departments employed on plague duty, *viz.*, Rs. 3,797-8-0,—with the remark that the Government will be glad to know whether the continuance of the establishment sanctioned in Proceedings No. Pg. 299—301, dated the 4th October 1900, for guarding the inmates of certain houses in the Bangalore City, who are allowed home segregation, is necessary, in view of the fact that the Orders of the Government of India referred to in Government Notification No. Pg. 584, dated the 21st November 1900, prohibit the adoption of the system of cordons round infected dwellings.

EDUCATION

Proceedings of the Government of Mysore,

READ —

Letter No. 8755—395, dated the 19th March 1900, from the Inspector General of Education in Mysore, recommending, with reference to Resolution V passed by the Committee for the management of the Maharani's Girls' School, Mysore, at its meeting of the 5th March 1900, that the name of the said institution, which is in reality a 2nd Grade College, may be changed to "the Maharani's College."

2. Correspondence ending with letter No. 1993—111, dated the 25th August 1900, from the same Officer, stating that the change of designation proposed may be effected without any reference to the University authorities, but that, till affiliation is obtained, the institution will not be included by the University in the list of affiliated Colleges.

No. 6254—ED. 222, DATED BANGALORE, 5TH NOVEMBER 1900.

ORDER THEREON—The Government are pleased, in recognition of the growing importance of the Maharani's Girls' School and of the fact that it actually imparts instruction up to the F. A. standard, to sanction the proposed change of designation. This institution will accordingly henceforth be styled "The Maharani's Girls' College, Mysore," or more briefly "The Maharani's College."

2. It seems desirable in the interests of the College, to procure its affiliation to the University, and on this point the Inspector General of Education is requested to favor the Government with his opinion in consultation with the Committee of Management.

Letter No. 2539—131, dated 6th September 1900, from the Inspector General of Education in Mysore, recommending that the Pallegar scholarships sanctioned by him in January last on behalf of the two Mahomedan students noted in the margin may, as a special case, be continued to them till December 1900 in the Salem College which they are reported to have joined.

P. S. Mahomed Vajedin.

2. READ—

Docket. No. 3504—167, dated 17th October1900, from the same officer, explaining in reply to a reference from Government that according to Rule 9 of Government Order No. 3168 of the 14th December 1887, scholarships, not availed by sons of Pallegar pensionaries, are given to sons of distinguished Mahomedan pensionaries.

No. 6414-15—ED. 230, DATED BANGALORE, 7TH NOVEMBER 1900.

ORDER THEREON—The Government fail to see the applicability of the rule quoted by the Inspector General of Education in the second of the communications read above, to the case now under consideration. There is no provision in that rule for Pallegar scholarships unutilized by Pallegar students being made available for Mahomedan youths. It was, therefore, not regular to have allowed scholarships when there were no funds available under the proper head; much less could such scholarships be continued to the students studying in a school outside the State.

Letter No 2445—129, dated 10th September 1900, from the Inspector General of Education in Mysore.

With reference to Government Order No. 3144-5—Ed. F 2-96, dated the 30th August 1900, sanctioning the State Fund budget estimates of the Education Department for the current official year, I have the honor to request permission to utilise the following grants sanctioned in the budget for the purposes stated :—

(1) Rs. 100 for raising temporarily the provision for contingencies of the Central Book Depôt from Rs. 800 to Rs. 900 a year.

(2) Rs. 240 for appointing a Sanskrit Pandit for the Government High School at Channapatna.

(3) Rs. 288 for granting increases of pay to the menial establishment of the Shimoga College and appointing additional menial servants to the seven High Schools.

(4) Rs. 1,872 for house rent, cart hire and contingencies of Anglo-Vernacular Schools.

(5) Rs. 6,084 for new schools—Anglo-vernacular and Vernacular—to be opened during the current year.

(6) Rs. 7 344 for employing additional teachers and menial servants in Anglo-Vernacular and Vernacular Schools.

(7) Rs. 480 for employing two mistresses in the Lashkarmohalla Hindustani Girls' School.

(8) Rs 120 for raising the grant-in-aid of the Hassan Students' Home from Rs. 35 to Rs. 45 a month.

(9) Rs. 10,743 for building grants.

(10) Rs. 1,332 on account of monthly grants-in-aid to new schools.

(11) Rs. 3,198 on account of increases of grants to the existing Grant-in-aid Schools.

2. The necessary details have been furnished to Government in the statements referred to in the Order. I have no further information to give to Government than what I have already stated in my letters asking for the provisions to be made in the budget.

ii. Memo dated 6th November 1900, from the Comptroller to the Government of Mysore on the same subject.

No. 6950-51—Ed. 239, DATED, BANGALORE, 17TH NOVEMBER 1900.

ORDER THEREON—The Inspector General of Education will be authorised to utilise the additional allotments sanctioned in the State Fund budget for the current official year under the several heads referred to in his letter read above, as per detailed statements printed with Government Proceedings No. 3144-5—Ed. F. 2-96, dated 30th August 1900.

2. The Inspector General will be so good as to furnish Government with separate quarterly statements showing the progress made during the quarter in the utilization of the amounts sanctioned for (1) new schools; (2) additional hands to existing schools; (3) new grants-in-aid; (4) increases to grants-in-aid already sanctioned; and (5) building grants.

JUDICIAL

Proceedings of the Government of Mysore,

READ—

Letter No. 2408—61, dated the 5th October 1900, from the Registrar of the Chief Court of Mysore, to the Secretary to the Government of Mysore, General and Revenue Departments.

With reference to your Official Memorandum No. 2725—J. 288, dated the 22nd August 1900, *in re* proposal for transferring Heggaddevankote to the jurisdiction of the Additional Munsiff's Court at Mysore, I am directed to state that the transfer appears desirable. The District Judge and the Deputy Commissioner of Mysore are in favor of the proposal, as Heggaddevankote possesses greater facilities of communication with Mysore than with Nanjangud, to which Munsiff's Court the taluk is now attached. The populous portion of the taluk is said to lie mostly to the north of the Kapila River, and when people have to go to Nanjangud, they have to cross this and another river (Mugri), besides taking a circuitous road *via* Begur. This is said to be specially inconvenient during the rainy months.

2. Further, the Mysore Additional Munsiff's file is light enough to allow of the additional work.

No. 6563—J. 721, DATED BANGALORE, 10TH NOVEMBER 1900.

ORDER THEREON—Government are pleased to convey their sanction to the proposed transfer of the Heggaddevankote taluk from the Civil Jurisdiction of the Munsiff's Court at Nanjangud to that of the Additional Munsiff's Court at Mysore, with effect from the 1st December 1900.

2. A Notification to the above effect will be published in the Official *Gazette*.

Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Registrar of the Chief Court of Mysore.

READ—

Letter No. 6079—195, dated 24th April 1900, from the Registrar of the Chief Court of Mysore, forwarding a copy of the following order passed by them in Criminal Revision Case No. 80 of 1899-1900.

In the Chief Court of Mysore at Bangalore, Friday, the 30th day of March 1900.

Present.

Mr. Justice J. W. Best, Chief Judge, and
Mr. Justice T. Narahari Rao, Judge.

Revision Case No. 80 of 1899-1900.

In the matter of the conviction of Muneppa accused in Criminal Case No. 19 of 1899-1900, on the file of the Sub-Divisional Magistrate of Chikballapur (charge under Section 14 (*a*) of the Arms Act).

ORDER—The accused has been convicted of "manufacturing" a gun without a license and sentenced under Section 14 (*a*) of the Arms Regulation VI of 1890 to pay a fine of Rs. 7 or in default of payment of the fine to simple imprisonment for ten days.

All that is proved against the accused is that he repairs guns and was found in possession of a barrel, &c., given to him for the purpose of being repaired.

The question is whether the term "manufactures" in Sections 5 and 14 (*a*) of the Regulation includes repairs? This question has been answered in the negative by the Allahabad and Madras High Courts—Cf. J. L. R. 16 All. 276 and Weir's Digest p. 426.

That the work "manufacture" did not include "repair" under the Act of 1860 is apparent from the fact that both the words were used there in juxtaposition in Section 5 of that Act, "No person shall *manufacture, repair,* sell, or keep, or expose for sale," &c., and again "any person who shall *manufacture, repair,* sell, or keep, or expose for sale, &c." In the Act of 1878, which is the same as our Regulation VI of 1890, the word repair is replaced by "convert;" and it is contended by the Government Advocate that *this* word *includes* repair. We are unable to accede to this contention. The word convert has a technical meaning such as the conversion of a muzzle-loader into a breach-loader or a smooth bore into a rifled gun, &c.

As the word "repair" has been purposely omitted from the more recent Act and the Regulation which is founded on that Act, we must hold the conviction to be illegal.

It is, therefore, set aside and the fine, if levied, will be refunded.

Ordered as above.

No. 7051-59—J. 779, DATED BANGALORE, 20TH NOVEMBER 1900.

ORDER THEREON—The view held by the Chief Court being at variance with the opinion expressed by the Government Advocate in his letter No. 72, dated 1st November 1898, the Government Proceedings No. 6501-9—J. 681, dated 23rd idem, embodying the latter opinion, is hereby cancelled.

Letter No. 1163-121, dated the 28th September 1900, from the Inspector General of Police in Mysore, submitting the marginally noted extract from the *Madras Police Gazette*, dated the 15th September 1900, and suggesting that a provision similar to the same may be made in Rule 11 of the Rules framed under the Mysore Arms Regulation, No. VI of 1890, as there exists nothing to bind a license-holder holding a gun in Form VII under that rule, to give notice of the loss of his gun to the nearest Police Officer.

No. 70.

Guns covered by licenses in Form XI of the Arms Act.

"If a gun covered by a license in Form XI of the Arms Act 1878, i. e., by a license to possess Arms and Ammunition for the purpose of destroying wild animals, is lost or stolen, the license-holder shall at once give notice of the fact at the nearest Police Station.

G. O. No. 1174, Judicial, dated 22nd August 1900"

No. 7211-19—J. 803, DATED BANGALORE, 23RD NOVEMBER 1900.

ORDER THEREON—The Government are pleased to approve of the Inspector General's suggestion and to direct, in exercise of the powers conferred by Section 12 of the Arms Regulation No. VI of 1890, the insertion of the following as an additional condition at the end of Rule 11 of the Rules framed under the said Regulation :—

"If a gun covered by such license is lost or stolen, the license-holder shall at once give notice of the fact at the nearest Police Station."

2. A Notification to the above effect will also be published in the *Mysore Gazette.*

* * *

His Excellency in Council desires that it may be understood to be a Standing Order that all Officers must obtain the authorization of the Government to which they are immediately subordinate, before having recourse to the Courts for vindication of their public acts or their character as public functionaries from defamatory attacks. This Order does not affect an Officer's right to defend his private dealings or behaviour in any way that may to him seem fit, but his official reputation is in the charge of the Government which he serves. And it is for the Government, which will bear the cost of all such proceedings taken under proper sanction, to decide in each case whether the proceedings are necessary and expedient.

Proceedings of the Government of Mysore,

READ THE FOLLOWING PAPERS—

Letter No. 4244—Legis. 35, dated the 18th September 1900, from the Officiating Dewan of Mysore, to the Resident in Mysore:—

"I have the honor to forward, for favor of transmission to the Government of India, "for early approval, the accompanying copy of a Draft Regulation to pro- "vide for certain matters in connection with the taking of the Census in My- "sore. It is based on the Indian Census Act, X of 1900, recently passed for "British India, with the needful changes of adaptation."

(2). Letter No. 5141—Legis. 40, dated the 11th October 1900, from the Secretary to the Government of Mysore, General and Revenue Departments, to the First Assistant to the Resident in Mysore, requesting that, in view of the necessity for issuing timely instructions to local Officers and making other needful arrangements in regard to the forthcoming Census, the approval of the Government of India to the passing of the Draft Census Regulation may be obtained at as early a date as practicable.

(3). Letter No. 5634, dated the 31st October 1900, from the First Assistant to the Resident in Mysore, communicating the approval of the Government of India to the passing of the Draft Census Regulation.

No. 6196-7—LEGIS. 46, DATED BANGALORE, 2ND NOVEMBER 1900.

ORDER THEREON—Ordered that the Draft Regulation to provide for certain matters in connection with the taking of the Census, which received the assent of Her Highness the Maharani-Regent on the 2nd November 1900, be promulgated.

To—The Compiler, *Mysore Gazette*, with a copy of Regulation IX of 1900, for publication in a *Gazette Extraordinary* and in three succeeding issues, and for supply of 50 spare copies to this office and 200 to the Director of Statistics and Census Superintendent in Mysore, direct.
The Director of Statistics and Census Superintendent in Mysore.

READ THE FOLLOWING PAPERS—

(1) Letter No. 4243—Legis. 34, dated the 16th September 1900, from the Officiating Dewan to the Resident in Mysore—

"I have the honor to forward, for the approval of the Government of India, the "accompanying copy of a Draft Regulation to further amend the Indian "Evidence Act, 1872, as in force in Mysore. The Draft Regulation is based "on Section 2 of Act V of 1899 of the Governor General in Council, and is "intended to provide for the admission of expert evidence in connection "with the system of identification by means of finger-impressions."

(2) Letter No. 5937—505-1900, dated the 12th November 1900, from the First Assistant to the Resident in Mysore, communicating the approval of the Government of India to the Draft Regulation forwarded with the above.

No. 6888-9—Legis. 50, dated Bangalore, 16th November 1900.

Order thereon—Ordered that the Draft Regulation to further amend the Indian Evidence Act, 1872, as in force in Mysore, which received the assent of Her Highness the Maharani-Regent on the 16th day of November 1900, be promulgated.

To—The Compiler, *Mysore Gazette*, with a copy of Regulation X of 1900, for publication in three successive issues of the *Mysore Gazette*, and for supply of 200 spare copies to the Legislative Department.

The Inspector General of Registration in Mysore, with reference to para 3 of his letter No. 342, dated the 14th December 1899.

Read the following papers—

(1) Letter No. 866—Legis. 12, dated the 19—20th July 1900, from the Dewan of Mysore, to the Resident in Mysore.

"I have the honor to forward herewith a copy of the Draft of a Regulation to amend "the law relating to Forests and Forest produce in Mysore."

2. "The law at present in force on the subject consists of the Rules published with "the Governor General's Notification of the 8th June 1878, No. 588-F. These Rules "have been found to be wanting in fulness and accuracy of definition, in provision for "enquiry into and settlement of claims and an authentic record of admitted rights, in "adequate provision for the management of District Forests, and in sufficient clearness "with regard to the procedure and penalties in respect of forest offences and the powers "and obligations of Forest and other officers charged with the administration of forests."

3. "The experience gained during the 20 and more years that have elapsed has, "meanwhile, resulted in clearer ideas as to the essentials of a good Forest Law, ideas "embodied in the new enactments or amendments passed during this period in various "provinces of British India."

4. "These enactments, and, in particular, the ones marginally specified, have been "freely consulted and drawn upon in the "preparation of the present Draft Regula- "tion, which is, indeed, almost entirely based "upon them, barring certain additions and "modifications corresponding to local require- "ments. Of the latter the few that are noteworthy are referred to below."

The Indian Forest Act, VII of 1878, as amended from time to time;
The Madras Forest Act, V of 1882;
The Assam Forest Regulation, VII of 1891,
The Upper Burma Forest Regulation, V of 1898.

5. "Under Rule 15 of the existing Forest Rules, Government has the power to "grant certain privileges in State Forests. This has been retained in Section 27 of the "Draft Regulation, which, in addition, provides that all privileges so granted shall previ- "ously be duly specified and recorded."

6. "Rule 24, again, empowers Government to grant to cultivating raiyats the "privilege of removing from District Forests articles of forest produce required for certain "specified purposes. It is probable that this is covered by the powers conferred by "Section 35 of the Draft Regulation. But to place the matter beyond doubt, it is propos- "ed to expressly reserve the power in question in general terms as in Section 34. The "power to grant trees, not being of the reserved class, to cultivating raiyats, on favor- "able rates of seigniorage has also been reserved in Clause 2 of Section 35."

7. "The rights of Inamdars entitled by the terms of their sanads or by Judicial "decisions to the timber and sandalwood in their inam villages, and of Inamdars not so "entitled, are defined in Rules 31 and 32. To save these rights from being affected by "the proposed repeal of the Forest Rules as a whole, the provisions on the subject have "been reproduced in Sections 69, 70 and 71."

8. "The new Sections 72 and 73, which correspond to the existing Rule 28 and to "the Chief Commissioner's Notification No. 186, dated the 16th August 1870, have re- "ference to the fact that sandalwood has all along been a Government monopoly in

"Mysore; and in view to protect this more effectually, it is provided in Section 74, that "all the prescribed penalties shall be doubled in the case of offences relating to sandal "trees. Power has also been, in accordance with the existing practice, reserved in Section "75, to regulate the manufacture or distillation of sandalwood oil by means of licenses."

9. "With these explanations, I request you will kindly obtain the approval of the "Government of India to the Draft Regulation being passed into law."

(2) Letter No. 5965—390-1900, dated the 13th November 1900, from the First Assistant to the Resident in Mysore, to the Officiating Dewan of Mysore.

"I am directed to acknowledge the receipt of the Dewan's letter No. 866—Legis. 12, "dated the 19th July 1900, forwarding the Draft of a Regulation to amend the law relat- "ing to Forests and forest produce in Mysore."

2. "In reply, I am to state that the Draft Regulation is sanctioned by the Govern- "ment of India, provided that the Governor General in Council retains over it the power "and authority which vests in him by virtue of Article 19 of the Instrument of Transfer."

3. "It is possible that a short Bill to amend the Indian Forest Act in certain parti- "culars may be introduced at an early date into the Legislative Council of the Governor "General. Should such a Bill be passed, the Mysore State might then consider whether "similar amendments should not be made in the Draft Regulation which has now been "accepted."

No. 7314-15—Legis. 52, dated Bangalore, 24th November 1900.

Order thereon—Ordered that the draft Regulation to amend the Law relating to Forests and Forest Produce in Mysore, which received the assent of Her Highness the Maharani-Regent on the 16th November 1900, be promulgated.

2. The following Notification will also be published simultaneously in the *Mysore Gazette* :—

NOTIFICATION.

No. 7316—Legis. 53, dated 24th November 1900.

"Under clause (3) of Section 1 of the Mysore Forest Regulation, XI of "1900, the Government are pleased to direct that the said Regula- "tion shall come into force on the 1st day of January 1901."

The Conservator of Forests in Mysore, for information.

NOTIFICATION.

No. 7440—Legis. 57, dated Bangalore, 27th November 1900.

Under Section 47, Sub-Section (3), and Section 60, Sub-Section (3), of the Mysore Inventions and Designs Regulation, XI of 1894, the Government of Mysore are pleased to direct that the fees for the time being payable under those sections shall be collected in cash instead of by means of stamps.

2. In exercise of the powers conferred by Sections 48 and 61 of the said Regulation, the Government are further pleased to make the following rules—

(*A*) for the preparation of applications and specifications filed under Sections 5, 8 and 50 of the Regulation and of drawings attached thereto, and

(*B*) for dealing with applications presented under Section 5 of the Regulation.

A. Rules for the preparation of applications and specifications filed under Sections 5, 8 and 50 of the Mysore Inventions and Designs Regulation, 1894, and of drawings attached thereto.

1. All words used in these rules and defined in the said Regulation shall have the meanings thereby assigned to them, respectively.

2. Applications and specifications must be neatly and legibly written, printed, or otherwise reproduced upon one side only of stout paper of half foolscap size, that is, of a size of 13 inches in height by 8 inches in width; and the pages numbered consecutively in the right hand top corner.

3. Drawings must be on either stout paper or tracing cloth and must be neat and clear. Photographs will be accepted if made or mounted in accordance with the following rules.

4. The left hand portion of each sheet of drawings, to the width of a half sheet of foolscap, that is, a width of 8 inches, must be left blank, so that when the sheets are opened out, the sheets which lie above them and contain the text of the application or specification will conceal no portion of the drawings.

5. Each sheet of drawings must be—

(*a*) of a width not greater than that of a sheet of foolscap, that is, a width of 16 inches, except when the size of any single drawing is such that a greater width is required for it;

(*b*) of the same height as a sheet of foolscap, that is, a height of 13 inches, except when the size of any single drawing is such that notwithstanding increased width a greater height is unavoidably necessary.

6. A clear margin of half an inch must be left round the portion of the sheet which is occupied by drawings.

7. Reference figures and letters must be clear and bold, and the same letters should be used for the same parts in different views of drawings. In complicated drawings, or when there is not room to write the letters in their proper places, the letters should be shown outside the figure and connected with the parts referred to by fine lines.

8. The name of the applicant, and the year in which the application is made or specification filed, should be shown on each sheet of drawings in the right hand top corner of the blank space left under Rule 4. The sheets, when more than one, should be numbered consecutively, and the number of each should be shown in the right hand top corner of the sheet.

9. No written description of the invention or design should appear on the sheets of drawings.

10. When a patent has been applied for or obtained in England, or when an exclusive privilege has been applied for or acquired in British India, a fac-simile of the drawings submitted with the English or British Indian application may be filed, without reference to the above rules.

11. Notwithstanding its non-compliance with any of the above rules, the Government of Mysore may in their discretion permit any application or specification to be received and filed without requiring the same to be amended.

B. Rules for dealing with applications presented under Section 5 of the Regulation.

12. Every application under Section 5 of the said Regulation for leave to file a specification shall, on receipt and before being entered in the Register of Inventions maintained under Section 12, be examined by the Secretary to Government in the General and Revenue Departments (who has been appointed to discharge the functions of Chief Secretary under the Regulation), with a view to ascertain whether it complies with the requirements of the said Section 5. No application or duplicate application shall be notified in the *Gazette* or open to public inspection until such examination has been made, and unless and until the application has been entered in the Register of Inventions.

13. If, on examination, the application is found to be manifestly defective in respect of any of the said requirements, that is to say—

(*a*) if it is not signed by the inventor or by his duly authorised agent,

(*b*) if the name, occupation or address of the inventor is not stated,

(*c*) if there is any material departure from the form prescribed in the second or third schedule to the Regulation, as the case may be,

(*d*) if, in the event of a patent in the United Kingdom having been obtained, or of an exclusive privilege having been acquired in British India, the dates of such patent and of the actual sealing thereof or the date of the acquisition of the exclusive privilege, is or are not stated,

(*e*) if the nature of the invention is not described, or

(*f*) if the particular novelty whereof the invention consists is not described,

the application shall not be deemed to be an application within the meaning of the section, and the Secretary shall return it and its duplicate to the applicant, with as little delay as possible, together with an order specifying the defects on account of which it is returned. An application so returned shall have the date of receipt endorsed upon it, but it shall not be numbered or entered in the Register of Inventions.

Explanation.—If the application contains a substantial and *bona fide* description of the invention and of its novelty, it shall not be held to be defective under clause (*e*) or clause (*f*) merely by reason of the description not being so full or explicit as may be desirable.

14. If the application is not manifestly defective in respect of any of the matters referred to in Rule 2, the Secretary shall enter it in the register of inventions. If it appears to be defective in any other respect, or if the description of the invention or of its novelty is insufficient, the Secretary may return it for amendment with an order specifying the defects to be supplied, or may, under Section 5, Sub-Section (3), call for further particulars relating to the invention or for drawings or photographs illustrative thereof. When the Secretary returns an application or calls for further particulars or for drawings or photographs under this rule, he shall fix a reasonable period, within which, if the application is not re-submitted, duly amended, or if the further particulars, drawings or photographs are not supplied, as the case may be, the application shall be deemed to have been abandoned, and no further action shall be taken up it. The period so fixed shall not be less than a month, and may, on good cause being shown, be extended from time to time by the Secretary, but not so as to exceed four months on the whole, without the sanction of the Government of Mysore.

READ—

Letter No 5868, dated the 10th October 1898, from the Chief Engineer of Mysore, forwarding, for sanction of Government, the Draft Rules relating to the preparation and submission of Sanitary projects and the execution of Sanitary works.

No. 7249-59—L. F. 31-1900, DATED BANGALORE, 24TH NOVEMBER 1900.

ORDER THEREON—The Draft Rules received with the letter read above are hereby circulated to Presidents of Municipal and Local Fund Boards for opinion.

L. ANANTASAMI RAO, *Offg. Secy. to Govt., Gen. & Rev. Depts.*

To—The Chief Engineer in Mysore.
The Presidents of Municipal and Local Fund Boards, with copy of Draft Rules.

DRAFT RULES

TO BE OBSERVED IN SUBMITTING SANITARY PROJECTS AND CARRYING OUT SANITARY WORKS.

1. No sanitary work estimated to cost more than Rs. 200 shall be undertaken by any Local Fund Board or Municipal Board without the prior approval of the Chief Engineer.

NOTE.—(*a*) Works such as those relating to (1) building of hospitals, dispensaries, markets, slaughter-houses, latrines, incinerators urinals, cess-pools, &c.; (2) water-supply; and (3) drainage, are sanitary works.

(*b*) The limit of Rs. 200 laid down in this rule does not include the cost of site.

2. Whenever it is proposed by any Local Fund Board or Municipal Board to make any considerable improvements in existing village-sites or to lay out new sites, the proposals relating thereto shall first be submitted to the Sanitary Commissioner for approval.

3. The Sanitary Commissioner shall, on receipt of such proposals, deal with the points of sanitary principle involved, and either return them to the forwarding authority for re-consideration, or transmit them to the Sanitary Engineer with such remarks or proposals as the circumstances may require.

4. Should the Sanitary Engineer find himself unable to agree with the Sanitary Commissioner as to the general character of the engineering measures to be taken to secure the sanitary requirements of the work, he shall refer the matter to the Chief Engineer, who shall decide the points at issue.

5. When the sanitary requirements of the work have been agreed to, or have been decided upon by the Chief Engineer, the Sanitary Engineer will deal with the proposals from an engineering point of view, as laid down in Rule 1 or 9 as the case may be.

6. The Sanitary Engineer shall not be required to design particular works such as the above for Municipal Boards or Local Fund Boards, except with the approval of the Chief Engineer. Applications for such designs shall be made by the Sanitary Commissioner or by local bodies to the Chief Engineer.

7. In the case of major sanitary schemes, it will be the duty of the Sanitary Commissioner to bring to the notice of the Chief Engineer any local or Municipal area where a water-supply or drainage scheme or any other major sanitary work is required. The Chief Engineer will then call on the Sanitary Engineer to report how the schemes can best be carried out, and his report will be forwarded to the Sanitary Commissioner for his opinion from a sanitary point of view. Should the Sanitary Commissioner condemn the Sanitary Engineer's scheme on sanitary grounds, it will be for the Chief Engineer to decide whether the Sanitary Engineer should be required to modify his proposals, or whether the matter should be at once referred for the orders of Government as to the preparation of detailed plans and estimates.

8. The Sanitary Engineer will, in concert with the Sanitary Commissioner, draw up and submit to the Chief Engineer in the last week of March of each year a statement of the major works he proposes to deal with in the ensuing year. The list will, after approval by the Chief Engineer, be submitted for the orders of Government.

9. All plans and estimates for works of a sanitary nature, costing less than Rs. 500, shall be prepared by the local bodies, and those costing Rs. 500 and upwards by the Sanitary Engineer under the orders of the Chief Engineer. The plans and estimates for works costing Rs. 1,000 and upwards shall, after completion by the Sanitary Engineer, be forwarded to the Sanitary Commissioner for opinion on sanitary grounds only. The Sanitary Commissioner will forward them with his opinion to the Chief Engineer, who will consider them, and, after approval or amendment, forward them to Government if the project is estimated to cost Rs 5,000 or more.

10. The Sanitary Commissioner and the Sanitary Engineer will each prepare an Annual Report with reference to his own particular branch, and these will be compiled in the form of an Annual Report by the Chief Engineer. The report should be submitted to Government by the 1st September in each year.

L. B. B.—MUNICIPAL

Proceedings of the Government of Mysore,

READ—

Letter No. 488—L. F., dated 25th September 1900, from the Comptroller to the Government of Mysore.

I have the honor to enclose, for the information of Government, the due dates and dates of actual receipt in this office of the Local Fund returns and their accompaniments for the last year, from which it will be observed that though the Government were, in their Proceedings No. 4532—L. F., dated 8th September 1893, pleased to extend the time from the 15th to the 30th of the month following, and extra establishment was sanctioned by Government in their Proceedings No. 6982-90—L. F. 3-97, dated 6th December 1898; the accounts are neither received punctually nor in complete form with all vouchers and subsidiary returns. I request therefore that strict orders may be issued for the submission in future of these accounts in time and in complete form.

No. 6239-47—L. F. 20-1900, DATED BANGALORE, 5TH NOVEMBER 1900.

ORDER THEREON—From the above it appears that great delay was allowed to occur by all the Presidents of the Municipal and District Fund Boards in the transmission of their monthly accounts to the Comptroller, notwithstanding the clear and strict injunctions issued in paras 2 and 3 of Government Proceedings No. 4532-40—L. F. 16-92, dated 8th September 1893, the greatest delay being in respect of the Municipal accounts of the Bangalore City for June 1900, which were delayed for 50 days subsequent to the date on which they were due. Government view with displeasure this unsatisfactory state of things, which can no longer be allowed to continue, as it is of the highest importance that these accounts should be received in the office of the Comptroller in time, so as to admit of his periodical returns being submitted to Government on or before the prescribed dates. The attention of the Presidents of the several Boards is accordingly drawn to Government Proceedings of 8th September 1893, with a request that they will in future obtain accounts from taluks and transmit them so as to reach the office of the Comptroller on or before the dates fixed, the pay of the officials concerned being stopped in every case of delay, as directed in para 2 of the Proceedings.

Letter No. 618, dated 10th October 1900, from the Comptroller requesting to be informed if it was the intention of Government to relieve the Municipal and District Funds of the cost of contingencies of the Dewan's and Comptroller's offices in addition to that of the establishments therein maintained.

No. 6519-29—L. F. 67-97, DATED BANGALORE, 10TH NOVEMBER 1900.

ORDER THEREON—The Comptroller is informed that Proceedings No. 7605-13—L. F. 67-97, dated 4th January 1900, was intended to apply also to the cost of contingencies of the offices referred to, which should be met out of the contingent allowances of the respective offices and be debited to Provincial Funds, as in the case of the cost of the establishments maintained in those offices. It is unnecessary to allow a separate contingent allowance, as the petty charges which may from time to time be incurred, can be easily met in the Dewan's office out of the contingent allowance of that office, and in the case of the Comptroller's establishment, out of his office contingent allowance.

No. 7035-37—L. F. 50-99, DATED BANGALORE, 20TH NOVEMBER 1900.

RECEIPTS.

ORDER THEREON—*VIII. Rents.*—As it is stated that, on account of a likelihood of keener competition for the market stalls, an increased revenue is expected under this head during the current year, the increased estimate, tentatively retained in the budget, will be passed.

Para 3 of Govt. Pro. Para 2 of President's letter.

EXPENDITURE.

III. Collection.—The increase on account of contingencies under this head is stated to be due to the additional establishment entertained on account of the introduction of tolls and taxes on vehicles and animals and the levy of Octroi duties on more articles. The estimate is approved.

No. 7481-83—L. F. 59-99, DATED BANGALORE, 28TH NOVEMBER 1900.

ORDER THEREON—*License Receipts.*—The President explains that, as the Kadur Municipality realized no income under this head during the last year, no estimate was entered for the current year. The explanation is approved.

Para 4 of Government Proceedings. Para 1 of President's letter.

2. *Opening Balance.*—It is now explained that the figures under this head were erroneously based on the closing balance of July 1899 instead of the opening balance. In lieu of the opening balances already sanctioned by Government, the following figures furnished in the Comptroller's account for June 1900, since received, will be adopted :—

3. *II. Head Office.*—As the employment of a mutsaddi on Rs. 15 per mensem in the Chikmagalur Vice-President's office was sanctioned in Government Order No. 8907-8—L. F. 81-98, dated 1st February 1900, and as an English clerk on Rs. 20 per mensem for the Sringeri President's office is stated to be absolutely necessary to carry on the work of English correspondence to the Government, to the Comptroller, &c., the provisions made therefor will be passed.

Para 9 of Government Proceedings. Paras 3 and 4 of President's letter and memo.

4. *III. Collection.*—With reference to the reduction of provision ordered in Government Proceedings No. 2848-60—L. F. 59-99, of the 23rd August 1900 in the budget of the Sakrepatna Municipality, the President states that a mutsaddi on Rs. 8 per mensem was sanctioned in Government Proceedings No. 12828-9—L. F. 59-99, dated 26th May 1900, for the collection of Octroi duties and to the supervision of conservancy, lighting and other works of the Municipality, the services of the conservancy peon on Rs. 6 per mensem being done away with. Under these circumstances, the provision of Rs. 27 will be raised to Rs. 96.

Para 10 of Government Proceedings.

5. *IV. Conservancy.*—As the President states that no latrine sweeper is available either in Sringeri or in the neighbouring taluks, one has to be imported from Southern India and that nobody will go to that part of Malnad for anything less than Rs. 15 per mensem, the provision tentatively retained will now be passed.

6. *VIII. Public Works.*—As funds are available for the drainage scheme of the Sringeri Municipality by the enhancement of its opening balance from Rs. 986 to Rs. 2,613 in para 2 *supra*, the provision under "Drains, Original" will be raised to Rs. 4,000.

Correspondence ending with docket No. 33, dated 16th October 1900, from the Superintendent of Inam Settlements in Mysore, expressing his opinion on Subject No. 137 of the Representative Assembly Proceedings of October 1899.

No. 3770-8—R. 1249, DATED BANGALORE, 7TH NOVEMBER 1900.

ORDER THEREON—At the Meeting of the Representative Assembly held in October 1899, it was represented that Desayi and Nadig Inams granted on account of Military services rendered in olden days, might not be treated as Brahmadaya or Personal Inams, in other words, the denomination should not be changed. The Superintendent of Inam Settlements, whose opinion was called for, having stated that all Desayi and Nadig Inams had been duly registered and enfranchised as personal grants in accordance with the rules laid down in clauses C and F of Section VIII of the Land Inam Rules, he was further requested to state whether there was any objection to the origin of such estates being kept alive in the memory of the present generation by allowing the old nomenclatures to continue, subject to no alteration in the conditions and tenure of the Inam. In reply, he states that there seems to be no objection beyond the labour of making the necessary alterations in the Registers and in the Title-deeds which will have to be recalled.

2. If the Superintendent of Inam Settlements has no objection, the Government are in favor of complying with the wish so generally expressed in this behalf, and desire that action be taken to insert the required alterations in the Registers and Title-deeds.

Letter No. 158—149, dated 10th August 1898, from the Deputy Commissioner, Chitaldrug district, soliciting sanction to the cancelment of the loan order issued in favor of Gowda Siddappa of Challakere, as the full amount advanced for an irrigation well has been repaid.

No. 3918-26—R. 1304, DATED BANGALORE, 14TH NOVEMBER 1900.

ORDER THEREON—A loan of Rs. 200 was advanced to one Gowda Siddappa of Kasba Challakere for the repair of an irrigation well in his land, Survey No. 77 of the said village. The well having been completed, a loan order for the amount was issued in June 1894, the loan being made repayable in 20 equal annual instalments of Rs. 13-7-1, commencing from 1894-95. Siddappa paid up the instalments regularly till 1897-98. In May 1898 he made a further payment of Rs. 168-13-9 in full liquidation of the amount due to Government.

2. In soliciting sanction to the cancellation of the loan order, the Deputy Commissioner forwards for reference a copy of Comptroller's letter No. 5407—S. A. 1463, dated 3rd February 1898, wherein that officer states that payment of instalments *in advance* is not desired by Government, and that when such payment is made, there is nothing in the rules or in the loan order to exempt the party from the payment of the full amount of instalments inclusive of interest, and adds that he fails to understand why a debtor should not be permitted to liquidate his debt sooner than the time originally fixed.

3. The instalments include principal and interest, and they are fixed in accordance with the annuity table given in Appendix B to Notification No.183, dated 21st July 1891. In the present case, the total amount recoverable in 20 instalments is Rs. 268-14-0. Towards this sum the loan-holder has paid in all Rs. 222-10-1, and the question is whether the balance of Rs. 46-3-11 should be recovered or not. The proper amount of lump-sum payments in such cases is the sum of the "Present worths" of the remaining instalments. In other words, it is such an amount as could be discharged in 16 years by annual instalments of Rs. 13-7-1 or Rs. 13·444. According to the annuity table referred to and by the rule of three, the amount comes to Rs. 168-13-11, which has been practically recovered already.

4. When the loan is repaid before the date fixed, it is nothing but fair that the interest should be proportionately reduced. The easy terms under which and the long period over which the debt is given and allowed to extend, are for the benefit of the debtor, and when, to derive increased benefit, the debtor pays off the debt in advance and in a lump sum, there seems to be no reason whatever to compel the debtor to forego that benefit or withhold it from him. The Government accordingly direct that the amount of prospective interest, *viz.*, Rs. 46-3-11, be remitted in this case.

Letter No. Camp 634, dated 3rd November 1900, from the Deputy Commissioner, Kolar district, to the Secretary to the Government of Mysore, General and Revenue Departments :—

With reference to your docket No. 3301—1085, dated the 19th October 1900, I have the honor to state that the delay in the submission of the tour statement for the quarter ending 30th June 1900 was partly due to the non-receipt of information from the 2nd Assistant Commissioner, who has been called on for his explanation, which will be duly forwarded to Government, and partly to the clerk entrusted with the tabulation of the statement, who has been fined Re. 1 and warned severely. Care will be taken against the recurrence of such delay in future.

2. In the Kolar district, 11 darkhasts were pending at the end of the previous quarter. But the number shown as pending disposal at the beginning of the present quarter is nine. This discrepancy requires explanation.

3. The attention of the Deputy Commissioners of Tumkur and Hassan districts is drawn to paras 2 and 3, respectively, of Government Proceedings No. 1591-8—R. 514, dated 18th August 1900, with the request that submission of the explanation therein called for, may be expedited.

4. The attention of the Deputy Commissioners of Shimoga and Mysore is again drawn to the large number of applications pending disposal at the end of the quarter under review.

5. The Deputy Commissioners of Hassan and Kolar will be requested to warn the Amildars with whom the darkhasts of the years 1892-93 and 1894-95 are pending, that, if they are not disposed of finally before the next return is submitted, their negligence will be severely noticed. If they are shown pending in the next return, the explanations of these Amildars will be sent up with them.

Proceedings of Government No. 3193—R. F. 8-1900, dated 16th October 1900.

READ—

Letter No. 189, dated 19th September 1900, from the Superintendent of Revenue Survey in Mysore—

I have the honor to acknowledge receipt of the Proceedings of the Government of Mysore, Order No. 2313-21—R. 779, dated 12th September 1900, requesting me to take the work of revision of assessment, due on the expiration of the original settlements in Mysore, in hand, and to submit to Government my proposals for each taluk as it may become ready. These orders will be duly carried out.

2. I am also directed to bring to the notice of Government any points on which I may feel any doubt, or on which any special instructions may be wanted.

3. I cannot better comply with the above direction than by submitting for the information of Government a copy of the Departmental Rules which I have drawn up for the partial re-survey necessitated by the revision of the assessment ordered. These Rules, it is true, are for the guidance of the Measuring establishments and will be translated into Kanarese and duly distributed, but they furnish the fullest basis for comprehending the scope of the partial re-survey and for elucidating any points of doubt. In framing these Rules I have of course regarded the revision of assessment, now directed, as coming under Section 115 of the Code and as including the fresh revenue survey alluded to in the same section. I beg to make a few remarks in explanation.

4. It will be observed that the Rules provided for two classes, so to speak, of re-measurement, (1) (Rules 5 to 12 inclusive) for the correction of the field work, where absolutely necessary owing to changes which have taken place, and (2) (Rules 13 to 26 inclusive) for the formation of "new survey numbers" in accordance with the revised Rules under the Land Revenue Code, which will shortly be submitted to Government.

5. Regarding the first class of re-measurement, Rules 5 to 12, there can be no question. I do not think that I have framed a single rule which is not necessary towards the object in view, *viz.*, the revision of the assessment.

6. As regards the second class of re-measurement (Rules 13 to 26) it will be seen that it provides for the formation of "new survey numbers" almost entirely in the interests of the occupants. It is what has been done in all the revision surveys in Bombay. It will also be seen that Rules 20 and 21 are specially framed to rectify what I may fairly call mismanagement on the part of the Revenue Department during the currency of the settlements now to be revised. Not excepting even these two rules, however, the whole of the Rules (13 to 26) are framed for the benefit of the occupants, although, of course, they mean good work, from a survey point of view. It must, however, be admitted that Rule 16 and, depending on it, Rule 17 represent a good deal of re-survey. These two rules represent the bulk of the re-measurement into "new survey numbers," and therefore the question arises of whether their operation should be imperative or optional. As Rules 16 and 17 now stand, the formation into "new survey numbers" of "Khatas" below the minimum (it will of course be understood that the minimum need not be the same as that prescribed under new Land Revenue Rule XXVII but will be fixed very carefully under Rule 14 of re-survey rules according to the mode of husbandry followed in each taluk) is imperative. If it be left to the option of the occupants, I dare say that a good deal of re-survey work will be saved, and of course if the occupant elects *not* to have a "new survey number" made, he has no right to complain hereafter.

7. I can suggest nothing else than the above in the way of reducing the amount of re-measurement. It seems a pity however to leave work undone which, whatever the occupants may, probably in ignorance, at present say or think, may be hereafter found necessary. Of course in taluks like those of the Chitaldrug district the minimum can, and should, be fixed very high, especially in the case of black cotton soil and the higher the minimum of course the fewer the "new survey numbers" to be made under Rule 16. The minimum of 6 acres for dry in the Chitaldrug district, laid down in new Land Revenue Rule XXVII, was purposely fixed very low, as the question of a re-survey was then quite unsettled. With a re-survey in question all the minima laid down for the various taluks will stand raising and consequently the re-survey work will be reduced.

8. For a taluk like Davangere I would not hesitate to fix the minimum for black soil dry occupancies as high as 12 acres and the maximum, for the same soil, at 30 acres. In Hiriyur taluk those figures might even be higher. The fixing of minima and maxima may safely be left to me to decide in the case of each taluk, and each class of soil, before operations commence.

9. In the greater part of the Chitaldrug district no re-classification will be necessary, that having been already done under the Orders of 5th November 1896. In taluks not re-classed under the Orders of 1896, re-classification on those lines will have to be done.

10. With the above remarks I beg to solicit the early instructions of Government as arrangements to take the field on 1st November are well advanced.

RULES FOR THE PARTIAL (UDAFA) RE-SURVEY OF THE MYSORE STATE.

Preliminary.

"Survey Number" means a survey number according to the present existing survey.

"New Survey Number" means a survey number according to the re-survey now ordered.

"Rules" mean the ordinary Measuring Rules, when not opposed to the Rules herein laid down.

For the purpose of these Rules a "sub-number" made at the sub-division survey of 1892-93 shall be considered to be a "survey number."

The following are the records, papers and maps with which a Measurer shall be supplied for each village before commencing the partial re-survey under these Rules:—

(1) The original survey field books, both rough and fair.

(2) The sub-division survey "Sud" of 1892-93.

(3) The Classification Register prepared at the re-classification of wet and garden lands ordered in Government Proceedings of 5th November 1896.

(4) A copy of the village map as corrected up to date.

Of the above, the Measurer shall, in carrying out the following Rules, adopt the most recent; thus the Classfication Register should take precedence of the sub-division "Sud" and the latter of the "Akarband."

Applicable to all Survey Numbers.

1. Each and every survey number in the village must be inspected and (1) either confirmed, as at present entered in the books and maps, (2) re-measured or (3) sub-divided and made into "New Survey numbers."

2. The "Bandh Pahani" or boundary marks inspection of all "New Survey numbers" must be carried out strictly according to Rules, including, of course, that of all survey numbers entered as "Kaim" under Rule 4.

3. "Khrab Nikal" or allowance for "Pot khrab" must be most carefully done under the following general directions:—

(a) "Pot khrab" as at present allowed must not be interfered with excepting when it has been converted into wet land by use of water, the right to which vests in Government.

(b) New "Pot khrab" shall only be allowed in cases in which the land has been rendered unfit for cultivation by the action or orders of Government itself, or by natural causes such as diluvion, new water-way and so forth.

(c) All doubtful cases must be reported for the orders of the Assistant Superintendent.

4. When a "Survey number" is neither re-measured nor sub-divided, but remains as at present, it shall be given its proper "Chalta or current number" and a remark made that the original measurement, demarcation, books and maps are "Kaim." Any change in the "Pot khrab" under the preceding rule must, of course, be recorded.

When Survey Numbers must be re-measured.

Survey numbers must be re-measured in the following cases:—

5. When a survey number adjoins a high road or channel, the proper margin to which has never been deducted.

6. When new roads, new channels, or new railways have not at, or since, the original measurement, been measured according to Rules.

7. When a river or stream adjoins a "Survey number" and there has obviously been a change of boundary, either from alluvion or diluvion or from encroachment. The number must not be re-measured simply because it adjoins a river or stream, but only if some change has taken place.

8. When a village site adjoins a survey number and has obviously been extended, either by authority or by usage. In the latter case a report should be made to the Assistant Superintendent, but the measurement must be made nevertheless.

9. When a high road runs through a large "Khrab" number of poor quality, never likely to be cultivated, it will suffice to show its position by dotted lines: no new survey number need be made.

10. When the margin prescribed to be left uncultivated below tank bunds has not been excluded.

11. When assignments of land for any public purpose have been made, and have not already been dealt with, the necessary "Khrab Nikal" under Rule 3 must be made or, if necessary, a new survey number must be made.

12. Generally, no re-measurement should be made when a "Survey number" is obviously intact as to demarcation, field books and map; in short, the greatest care should be taken to avoid any unnecessary re-measurements.

WHEN "SURVEY NUMBERS" OR "SUB-NUMBERS" SHOULD BE SUB-DIVIDED AND MADE INTO "NEW SURVEY NUMBERS."

13. "Sub-numbers" of the sub-division survey of 1892-93 shall, for the purpose of these Rules, be regarded as "Survey numbers."

14. For each taluk, before commencing "Udafa" or partial re-survey, a maximum and a minimum area to constitute a "New Survey number" for each class of land, dry, rice or garden, will be laid down by the Survey Superintendent as also the relative extent of each class to be taken into calculation in mixed numbers, to estimate maxima and minima as above, *e. g.*, one acre of rice or garden land will be considered equivalent to so many acres of dry crop land according to the mode of husbandry followed in the taluk.

15. A "Khate," for the purposes of these Rules, is an occupancy separately recognized in the village accounts, and includes sub-divisions made under Land Revenue Rule XXVII and entered in Form 1, Appendix D—1 of those Rules.

16. Every "Khate," of greater extent than the minimum, shall be made into a "New Survey number."

17. When, in giving effect to preceding Rule 16, a "Khate" has been made into a "New Survey number" and there remains, in the same survey number, a "Khate" of less extent than the minimum, it also shall nevertheless be made a "New Survey number," provided, however, that if two or more small "Khates" thus remain over, they may be comprised in one "New Survey number" if they adjoin. If they do not adjoin they must, perforce, be each made a "New Survey number."

18. When a "Khate" is of less extent than the *minimum* and the "Khatedar" desires that it shall be separately measured, demarcated and assessed, it may, with the sanction of the Assistant Superintendent, and on prepayment of the costs of survey as fixed by that Officer, be made into a "New Survey number."

19. When a "Khate" is of greater extent than the *maximum*, it may, but only if the Khatedar so desires, be made into two or more "New Survey numbers" as prescribed in these Rules.

20. Under the authority of Land Revenue Rule XXVII, certain sub-divisions of survey numbers have been made and duly entered in Form 1, Appendix D—1 to those Rules, and a copy of such form is kept by the shanbhog in each village. The following special directions apply to such sub-divisions:—

(a) As the right of relinquishment was conceded in the case of these sub-divisions, a "Survey number" may possibly contain some sub-divisions which are occupied and some which are unoccupied. In such a case the unoccupied sub-divisions must be made into "New Survey numbers" even if of less extent than the minimum.

(b) In some instances sub-divisions will be found to have been made in unoccupied assessed waste; in these cases the occupied and waste portions must each be separately made into "New Survey numbers" under these Rules.

(c) Sub-divisions will be found to have been made in "Khrab" "Survey numbers." These will have to be made into "New Survey numbers."

21. All occupancies granted by the Revenue authorities and *not* brought into account in the "Akarbands" must be made into "New Survey numbers" under these Rules.

22. Every sub-division effected under the decree of any Civil Court must be made a "New Survey number."

23. Government and Inam "Khates" must be separated when possible and each made a "New Survey number" under these Rules.

24. It is not permissible under these Rules to make "New Survey numbers" for purposes of sale, transfer and relinquishment, but only if there is already a "Khate" separately recognized in the village accounts. When, however, a "Khate" is so large as to come under Rule 19 above, "New Survey numbers" may be made, even for the above purposes, provided that all parties give a written agreement and point out the desired boundaries in the field, and that no "New Survey number" is less than the minimum.

25. Large "Survey numbers" consisting of unoccupied assessed waste may, in fact it is desirable that they should, be made into two or more "New Survey numbers" of not less than the minimum. If it is very unlikely that such "Survey numbers" will ever be required for cultivation they should be left as they are and not sub-divided.

26. When a "New Survey number" is made under any of these Rules, it must not contain part of one "Survey number" and part of another "Survey number." But when there has been a slight change of "Wahiwat" on the boundary of two survey numbers, and this "Wahiwat" is of long standing and admitted by the "Khatedars," this Rule, so far, may be waived and the boundary fixed according to actual occupancy. This provision only applies to small differences of boundaries within four annas. When, in sub-dividing a survey number, under Rule 19 or Rule 24, it is possible to make each kind of cultivation, dry, rice or garden, into a "New Survey number" of its own, this should be done, but not against the wishes of the khatedars.

GENERAL.

27. Whenever re-measurement is made, or "New Survey numbers" formed, under these Rules, all parties interested must attend, and the Village Officers must also attend, their names being duly entered in the Tippan books. This provision also applies to "Survey numbers" inspected under Rule 1.

28. In carrying out sub-division under these Rules, the Measurer shall make the boundaries of the "New Survey number" according to existing "Badavus" or cultivation ridges. He shall not run his boundaries wantonly through garden or other cultivation. He shall in short consult the convenience of the "Khatedars" in every way possible consistent with the Rules.

29. The new village map should be made as complete as possible up to date, showing by the usual symbols, all streams, large trees, houses, wells, kuntes, &c., omitted at the original measurement, or since sprung up.

SPECIAL RETURNS.

30. For each village the Measurer shall prepare a "Sud" in Form A appended.

31. From Village Form No. 11, he shall prepare a return according to Form B appended. This Form explains itself, but the information derived from the Village Form should be carefully checked before adoption.

32. Finally, the Measurer shall prepare and fill in, from time to time, Form C as appended. This Form also is very simple and explains itself.

No. 3193—R. F. 8-1900-1, DATED BANGALORE, 16TH OCTOBER 1900.

ORDER THEREON—The "Rules for the partial Revenue re-survey of the Mysore State," submitted by the Superintendent of Revenue Survey, are generally approved, as appended to this order, subject to the following suggestions, as to which Government would be glad to be favored with Colonel Grant's opinion for further consideration :—

1. Government consider that re-measurement is required in the following cases in addition to those specified in Rules 5 to 12 :—

(i) where village roads, which according to Rules, should have been excluded from survey numbers, have, in the original measurement, been included in them ; and

(ii) where portions of a Survey Number are submerged by the construction of a new tank by Government, or have been submerged by a tank existing at the time of the original survey.

2. It seems desirable that dry crop land in a survey number sold in all cases be separated from wet or garden land irrigated by Government water and made into a separate number. Rule 14.

3. The term "Khate" is generally understood to mean the aggregate of fields in a man's occupancy, and it will cause confusion to give it another meaning as is done in Rule 16, and it therefore seems preferable to substitute for it the phrase "an occupancy separately recognized in the village accounts and forming a portion of a survey number."

4. The Government think that the sanction referred to in Rule 18, should be that of the Superintendent of Revenue Survey himself and not of an Assistant Superintendent.

Also, Rule 18 goes beyond the corresponding Bombay Rule and provides for a sub-division of a number below the minimum being given the status of a survey number on the application of parties and on payment of cost. It is not quite clear whether such a course would be expedient. If, however, the Superintendent, on re-consideration, prefers to retain the provision, Government will not object to his doing so.

5. In Rule 20, clause (6), after the words "unoccupied assessed waste" the words "and portions taken up for cultivation" should apparently be added.

6. Rule 21 may be omitted, and any cases of occupancies granted by the Revenue authorities and *not* brought in the Akarbands may be reported by the Measuring Officers for the orders of the Superintendent of Revenue Survey.

7. In Rule 22, after the words "Civil Court" it seems desirable to add the proviso "subject to the provisions of Section 122 of the Land Revenue Code."

8. New survey numbers under Rule 24 should only be formed if application be presented for making a separate survey number under Rule 18. A condition to this effect may therefore be added after "Village Accounts" in this Rule, thus:—"It is not permissible under these Rules to make 'New Survey Numbers' for purposes of sale, transfer and relinquishment, but only if there is already an occupancy separately recognised in the village accounts, and *application is made for making a separate survey number under Rule 18.*"

READ—

Letter No. 260, dated 20th October 1900, from the Superintendent of Revenue Survey in Mysore, to the Secretary to the Government of Mysore, Revenue and General Departments.

I have the honor to acknowledge the receipt of the Proceedings of the Government of Mysore, No. 3193—R. F. 8-1900, dated 16th October 1900, on the subject of the Rules for the partial re-survey of the Mysore State, as submitted with my letter No. 189 of the 19th ultimo.

2. I will deal "seriatim" with the suggestions made in the Proceedings of Government.

3. As regards para 1, points (i) and (ii), it will be observed (see preliminary to re-survey Rules) that the ordinary measuring Rules, when not opposed to the re-survey Rules, are in force and that, under their operation, cases such as those cited would be dealt with, even if re-survey Rules 6 and 3 did not deal with both points, respectively. It is of course impossible in Rules, to provide for all possible contingencies which may arise, but there is not the slightest reason to fear that omissions and errors in the original survey will not be rectified. To remove doubt I will draw the attention of the Measurers to the general character of re-survey Rules 5 to 12 inclusive, in a supplementary Rule.

4. The suggestion at para 2 of Proceedings that dry crop land should, in each case, be separated from wet or garden land irrigated by Government water, and made into a separate survey number is, I fear, impracticable. Moreover our system of minute classification renders the separation of the above classes comparatively unnecessary. In Madras, where the classification is much less minute, such separation was found possible, but under the Bombay system almost every wet field, even in the well defined atchkat of a tank, has its little fraction of unirrigable dry land, ranging from one gunta upwards. To separate all these minute portions into survey numbers of their own would be a work of great magnitude and would by no means be approved of by the occupant, entailing, as it would, much fresh demarcation and maintenance of the same. I am of course aware that it would in many ways be of advantage to separate dry, wet and garden into survey numbers for each class but the labour, inconvenience and expense would be too great.

5. The term "khate," for the purpose of the re-survey Rules, is fully understood by our measurers and classers but, to avoid misconception, the term will be defined in a supplementary Rule.

6. Rule 18, as observed, goes beyond the corresponding Bombay Rule. When I framed Rule 18, Mr. Madhava Rao and myself, whilst revising the Rules under the Land

Revenue Code, had decided on recommending Bombay Rule 54 (*b*), but later on we determined not to recommend it. Consequently Rule 18 may be struck out. An immense amount of re-survey work will thus be saved.

7. The addition of the words "and granted for cultivation" will be added after the words "unoccupied waste" in Rule 20 (*b*).

8. With due respect, I think Rule 21 should stand. Land authoritatively granted for cultivation by the Revenue authorities must, as a matter of course, be measured and the omission to bring it on to the Akarband rectified. Constant reports, during operations, for the orders of the Superintendent, would only cause needless delay.

9. The addition of the words "subject to the provisions of Section 122 of the Land Revenue Code" will be added at the end of Rule 22.

10. As Rule 18 is to be omitted, the suggestion made at para 8 of the Proceedings will be sufficiently met by a proper definition of the word "Khate."

11. I think that the following explanatory Rules, as a supplement to the Departmental Rules for re-survey now under discussion, will remove all doubts :—

SUPPLEMENTAL OR EXPLANATORY RULES TO THE RE-SURVEY RULES FOR THE MYSORE STATE.

(1) Rules 5 to 12 cannot provide for all contingencies, and it must be distinctly understood that all omissions and errors in original measurement must now be rectified.

(2) The term "Khate," wherever occurring in these Rules, means that portion of a "Khate" comprised in a single survey number or a portion of a survey number. This caution is given because a "Khate" usually means the aggregate of a raiyat's holdings, a meaning which it cannot have for the purpose of these Rules.

(3) Rule 18 is cancelled.

(4) In Rule 20 *(b)* after the words "unoccupied waste" add "granted for cultivation."

(5) In Rule 22 add at end of Rule the words "subject to the provisions of Section 122 of the Land Revenue Code."

12. I trust that the addition of the above will be considered sufficient as the re-survey rules have been translated into Kanarese and are being lithographed. After all the re-survey rules now under discussion are purely Departmental and no confusion as to the term "Khate" can possibly arise.

13. Early orders will greatly oblige as there is little time left.

No. 4250-8—R. F. 8-1900, DATED BANGALORE, 26TH NOVEMBER 1900.

ORDER THEREON—With regard to the suggestion made by Government as regards the re-measurement of survey numbers in certain cases not provided for by Rules 5 to 12 of the re-survey Rules, the Superintendent of Revenue Survey is of opinion that it is impossible to provide in the Rules for all possible contingencies which may arise, and assures Government that all omissions and errors in the original survey will be rectified, and that, to remove all doubt, the attention of the measurers will be drawn to a supplementary Rule proposed explaining the general character of the re-survey Rules. The opinion of the Survey Superintendent is accepted and his suggestion may be adopted. The proposed supplementary Rule is approved.

2. For the reasons assigned by the Superintendent of Revenue Survey, the Government will not insist upon dry crop land in a survey number, being, in all cases, separated from wet or garden land irrigated by Government water and made into a separate survey number. They will, however, observe that where the dry portions are equal to or exceed the minimum extent prescribed for the taluk, it would seem desirable to separate them from the rest of the survey number, as without this the surreptitious use of water for extending irrigation in such lands cannot be checked. With this suggestion, the matter will be left to the discretion of the Superintendent of Survey in Mysore.

3. As regards the meaning of the term "Khate" for the purpose of the re-survey Rules, the explanation offered by the Superintendent of Revenue Survey is accepted, and the proposed supplementary Rule defining the term, approved.

4. Rule 18 of the re-survey Rules, which was intended to provide for the sub-division of a number below the minimum subject to certain conditions, will, as proposed, be omitted.

5. The addition of the words "and granted for cultivation" after the words "unoccupied assessed waste" in Rule 20 (*b*) of the re-survey Rules, is approved.

6. The Survey Superintendent's recommendation that Rule 21, which refers to occupancies granted by the Revenue authorities and *not* brought into account, may stand, is accepted. But it is observed that the Rule appears to have been too broadly stated and would give scope for fraudulent practices on the part of the lower Revenue authorities. *Bonâ fide* cases of this nature must be few. The fear of having cases of this nature brought before the Survey Superintendent would check occupancies of this character being granted. The direction to make "new survey number" of all such occupancies will be an additional temptation for many fraudulent cases being brought under this category. If the Superintendent of Revenue Survey does not wish the Rule to be qualified as suggested by Government, he is requested to state whether he is agreeable to calling for a statement, before the revision survey begins, of all such occupancies granted before a certain specified date.

7. The words "subject to the provisions of Section 122 of the Land Revenue Code" will, as proposed, be added to the end of Rule 22.

8. Rule 18 having been ordered to be omitted and the term "Khate" having been properly defined, the addition proposed by Government to Rule 24 need not be made.

9. The Government direct that the Rules as now modified and appended hereto be published together with the supplementary Rules above approved.

RULES FOR THE PARTIAL (UDAFA) RE-SURVEY OF THE MYSORE STATE.

Preliminary.

"Survey Number" means a survey number according to the present existing survey.

"New Survey Number" means a survey number according to the re-survey now ordered.

"Rules" mean the ordinary Measuring Rules, when not opposed to the Rules herein laid down.

For the purpose of these Rules a "Sub-number" made at the sub-division survey of 1892-93 shall be considered to be a "Survey number."

The following are the records, papers and maps with which a Measurer shall be supplied for each village, before commencing the partial re-survey under these Rules:—

1. The original survey field books both rough and fair.
2. The sub-division survey "Sud" of 1892-93.
3. The Classification Register prepared at the re-classification of wet and garden lands ordered in Government Proceedings of 5th November 1896.
4. A copy of the village map as corrected up to date.

Of the above, the Measurer shall, in carrying out the following Rules, adopt the most recent; thus the Classification Register should take precedence of the sub-division "Sud" and the latter of the "Akarband."

Applicable to all Survey Numbers.

1. Each and every survey number in the village must be inspected and (1) either confirmed, as at present entered in the books and maps, (2) re-measured or (3) sub-divided and made into "New Survey numbers."

2. The "Bandh Pahani" or boundary marks inspection of all "New survey numbers" must be carried out strictly according to Rules, including, of course, that of all survey numbers entered as "Kaim" under Rule 4.

3. "Khrab Nikal" or allowance for "Pot khrab" must be most carefully done under the following general directions:—

(*a*) "Pot khrab" as at present allowed must not be interfered with excepting when it has been converted into wet land by use of water, the right to which vests in Government.

(*b*) New "Pot khrab" shall only be allowed in cases in which the land has been rendered unfit for cultivation by the action or orders of Government itself, or by natural causes such as diluvion, new water-way and so forth.

(*c*) All doubtful cases must be reported for the orders of the Assistant Superintendent.

4. When a "Survey number" is neither re-measured nor sub-divided, but remains as at present, it shall be given its proper "Chalta or current number" and a remark made that the original measurement, demarcation, books and maps are "Kaim." Any change in the "Pot khrab" under the preceding Rule must, of course, be recorded.

WHEN SURVEY NUMBERS MUST BE RE-MEASURED.

Survey numbers must be re-measured in the following cases :—

5. When a survey number adjoins a high road or channel, the proper margin to which has never been deducted.

6. When new roads, new channels, or new railways have not at, or since, the original measurement, been measured according to Rules.

7. When a river or stream adjoins a " Survey number " and there has obviously been a change of boundary, either from alluvion or diluvion or from encroachment. The number must not be re-measured simply because it adjoins a river or stream, but only if some change has taken place.

8. When a village site adjoins a survey number and has obviously been extended, either by authority or by usage. In the latter case a report should be made to the Assistant Superintendent, but the measurement must be made nevertheless.

9. When a high road runs through a large " Khrab " number of poor quality, never likely to be cultivated, it will suffice to show its position by dotted lines ; no new survey number need be made.

10. When the margin prescribed to be left uncultivated below tank bunds has not been excluded.

11. When assignments of land for any public purpose have been made, and have not already been dealt with, the necessary " Khrab Nikal" under Rule 3 must be made or, if necessary, a new survey number must be made.

12. Generally, no re-measurement should be made when a " Survey number " is obviously in tact as to demarcation, field books and map ; in short, the greatest care should be taken to avoid any unnecessary re-measurements.

WHEN " SURVEY NUMBERS " OR " SUB-NUMBERS " SHOULD BE SUB-DIVIDED AND MADE INTO " NEW SURVEY NUMBERS."

13. " Sub-numbers " of the sub-division survey of 1892-93 shall, for the purpose of these Rules, be regarded as " Survey numbers."

14. For each taluk, before commencing " Udafa " or partial re-survey, a maximum and a minimum area to constitute a " New Survey number " for each class of land, dry, rice or garden, will be laid down by the Survey Superintendent as also the relative extent of each class to be taken into calculation in mixed numbers, to estimate maxima and minima as above, *e. g.*, one acre of rice or garden land will be considered equivalent to so many acres of dry crop land according to the mode of husbandry followed in the taluk.

15. A " Khate," for the purposes of those Rules, is an occupancy separately recognized in the village accounts, and includes sub-divisions made under Land Revenue Rule XXVII and entered in Form 1, Appendix D—1 of those Rules.

16. Every " Khate," of greater extent than the minimum, shall be made into a " New Survey number."

17. When, in giving effect to preceding Rule 16, a " Khate " has been made into a " New Survey number " and there remains, in the same survey number, a " Khate " of less extent than the minimum, it also shall nevertheless be made a " New Survey number " provided however that if two or more small " Khates " thus remain over, they may be comprised in one " New Survey number " if they adjoin. If they do not adjoin they must, perforce, be each made a " New Survey number."

18. When a " Khate " is of greater extent than the *maximum*, it may, but only if the Khatedar so desires, be made into two or more " New Survey numbers " as prescribed in these Rules.

19. Under the authority of Land Revenue Rule XXVII, certain sub-divisions of survey numbers have been made and duly entered in Form 1, Appendix D—1

to those Rules and a copy of such form is kept by the shanbhog in each village. The following special directions apply to such sub-divisions :—

(*a*) As the right of relinquishment was conceded in the case of these sub-divisions, a "Survey number" may possibly contain some sub-divisions which are occupied and some which are unoccupied. In such a case the unoccupied sub-divisions must be made into "New Survey numbers" even if of less extent than the minimum.

(*b*) In some instances sub-divisions will be found to have been made in unoccupied assessed waste and granted for cultivation; in these cases the occupied and waste portions must each be separately made into "New Survey numbers" under these Rules.

(*c*) Sub-divisions will be found to have been made in "Khrab" "Survey numbers." These will have to be made into "New Survey numbers."

20. All occupancies granted by the Revenue authorities and *not* brought into account in the "Akarbands" must be made into "New Survey numbers" under these Rules.

21. Every sub-division effected under the decree of any Civil Court must be made a "New Survey number," subject to the provisions of Section 122 of the Land Revenue Code.

22. Government and Inam "Khates" must be separated when possible and each made a "New Survey number" under these Rules.

23. It is not permissible under these Rules to make "New Survey numbers" for purposes of sale, transfer and relinquishment, but only if there is already a "Khate" separately recognized in the village accounts. When, however, a "Khate" is so large as to come under Rule 19 above, "New Survey numbers" may be made, even for the above purposes, provided that all parties give a written agreement and point out the desired boundaries in the field, and that no "New Survey number" is less than the minimum.

24. Large "Survey numbers" consisting of unoccupied assessed waste may, in fact it is desirable that they should, be made into two or more "New Survey numbers" of not less than the minimum. If it is very unlikely that such "Survey numbers," will ever be required for cultivation they should be left as they are and not sub-divided.

25. When a "New Survey number" is made under any of these Rules, it must not contain part of one "Survey number" and part of another "Survey number." But when there has been a slight change of "Wahiwat" on the boundary of two survey numbers, and this "Wahiwat" is of long standing and admitted by the "Khatedars," this Rule, so far, may be waived and the boundary fixed according to actual occupancy. This provision only applies to small differences of boundaries within four annas. When, in sub-dividing a survey number, under Rule 19 or Rule 24, it is possible to make each kind of cultivation, dry, rice or garden, into a "New Survey number" of its own, this should be done, but not against the wishes of the khatedars.

General.

26. Whenever re-measurement is made, or "New Survey numbers" formed, under these Rules, all parties interested must attend, and the Village Officers must also attend, their names being duly entered in the Tippan books. This provision also applies to "Survey numbers" inspected under Rule 1.

27. In carrying out sub-division under these Rules, the Measurer shall make the boundaries of the "New Survey number" according to existing "Badavus" or cultivation ridges. He shall not run his boundaries wantonly through garden or other cultivation. He shall in short consult the convenience of the "Khatedars" in every way possible consistent with the Rules.

28. The new village map should be made as complete as possible up to date, showing, by the usual symbols, all streams, large trees, houses, wells, kuntes, &c., omitted at the original measurement, or since sprung up.

SPECIAL RETURNS.

29. For each village the Measurer shall prepare a "Sud" in Form A appended.

30. From Village Form No. 11, he shall prepare a return according to Form B appended. This Form explains itself, but the information derived from the Village Form should be carefully checked before adoption.

31. Finally, the Measurer shall prepare and fill in, from time to time, Form C as appended. This Form also is very simple and explains itself.

SUPPLEMENTARY RULES.

1 Rules 5 to 12 cannot provide for all contingencies, and it must be distinctly understood that all omissions and errors in original measurement must now be rectified.

2. The term "Khate" wherever occurring in these Rules, means that portion of a "Khate" comprised in a single survey number, or a portion of a survey number. This caution is given because a "Khate" usually means the aggregate of a raiyat's holdings, a meaning which it cannot have for the purpose of these Rules.

Letter No. 201, dated 31st August 1900, from the Deputy Commissioner, Chitaldrug District, to the Secretary to the Government of Mysore, General and Revenue Departments.

In submitting herewith for sanction a bill for Rs. 5-8-0, being the amount of stamp duty and penalty proposed to be refunded to shanbhog Huleppa of Chelangi village, Chitaldrug taluk, I have the honor to state that a letter written by the said individual recommending a loan to a third person and offering himself to be responsible for the amount, was produced before the Munsiff of Chitaldrug in O. S. No. 346 of 1898-99 on the file of that Court.

2. The Munsiff considering the letter to be a security bond, impounded it under Section 33 (Clause i) as it was written on plain paper, and sent it to me under Clause ii of Section 38 of the Stamp Act.

3. I concurred with the Munsiff in the view taken by him with reference to this document, and sent it to the Amildar and directed him to recover from the shanbhog the required stamp duty and penalty thereon.

4. The shanbhog having declined to pay up the amount, I ordered his prosecution under Section 62 of the Stamp Act.

5. But subsequently to the date of my order, he produced the amount before the Amildar, and the same was credited in the Chitaldrug Taluk Treasury on 9th June 1899.

6. The prosecution against the shanbhog was, however, proceeded with in the Court of the Treasury Assistant Commissioner and 1st Class Magistrate and the shanbhog was sentenced to pay a fine of Rs. 20.

7. He then prayed the Chief Court for a revision of the case, in which the Judgment of the lower Court was set aside and the amount of fine ordered to be refunded. It was also held that the letter in question was not a security bond.

8. Under these circumstances, it is proposed that the amount of stamp duty and penalty paid by the shanbhog should be refunded to him.

No. 3782-3—FL. 355, DATED BANGALORE, 7TH NOVEMBER 1900.

ORDER THEREON—A letter written by shanbhog Huleppa, recommending a loan to a third person and offering himself to be responsible for the amount, was produced before the Munsiff of Chitaldrug in Original Suit No. 346 of 1898-99. The Munsiff considered the letter to be a security bond, impounded it as it had been written on plain paper, and sent the same to the Deputy Commissioner, who directed the levy of the required stamp duty and penalty. The shanbhog declined to pay the amount, and his prosecution was ordered. Subsequently, he paid the amount, but the prosecution was proceeded with. The accused was sentenced to pay a fine of Rs. 20. He applied to the Chief Court for a revision of the case. The Chief Court not only set aside the Judgment of the lower Court but also held that the document in question was not a security bond. Under these circumstances, the refund bill will be passed and forwarded to the Comptroller for audit.

I. Letter No. 499, dated 30th October 1895, from the Deputy Commissioner, Bangalore District, to the Revenue Secretary to the Government of Mysore.

I have the honor to state for the information of Government that up to the end of July last the Deputy Amildar was drawing the marginally noted items of monies from the Taluk Treasury at Channapatna and disbursing them to the parties.

1. Contingent allowances.
2. Pay of the Deputy Amildar and his establishment, including shekdars and peons.
3. Pay of Hobli school Masters.
4. Allowances of chattrams, masjids and temples.
5. Pay of travellers' bungalow establishment.
6. Pension allowances.
7. Amounts of cheques payable from Municipal, District Fund, Local Funds, General and Maramat.
8. Potgi allowances of patels and shanbhogs.
9. Pay of Police establishment.

2. On 2nd August 1895, Mr. C. Raghavacharlu, the Sub-Division Officer, issued an order to the Amildar deprecating the practice of remitting to the Deputy Amildar all the monies payable to the establishments in the Closepet sub-taluk, as it would diminish the Treasury Officer's responsibility, and directing that the pay of the Police establishment should be disbursed through the Police Inspector, that the establishment of the travellers' bungalows and the Hobli School Masters should be paid through the shekdars, and that payments on account of the establishment of the sub-taluk and on account of Municipal and Local Fund works should be made in the Taluk Treasury only.

3. The practice alluded to in para 2 was in existence from a long time, and in October 1893 the present Taluk Sheristadar asked instructions as to its continuance. Enquiries were made as regards the procedure observed in the sub-taluks of the Tumkur and Kolar districts, with the result that the practice in this district was found to be the same as in the other sub-taluks alluded to. No definite order was passed on the subject. The correspondence shows that the District Treasury Officer wrote to the Deputy Commissioner to hold the Deputy Amildar "personally responsible for all monies he receives from Channapatna" and that "he must keep an account of them and must preserve the daily balance in the Kasba station under lock and key in a box," and the late Mr. Mir Shujayet Ali Khan Saheb approved of it.

4. Mr. C. Raghavacharlu should not have disturbed the practice recognized by the Deputy Commissioner but should have represented the circumstances and sought modifying orders. But this question having arisen, I consider it important that the matter is worthy of consideration of Government, with a view of directing the proper course and of securing uniformity.

5. The Deputy Amildar is responsible for the permanent advances and imprests granted to him, and payments made to parties out of them have to be recouped as per rules laid down in that behalf. The Taluk Treasury Officer need not demand the presence in his Treasury of parties supplying office contingencies, &c. Cheques issued in favor of private parties should be cashed and paid in the Taluk Treasury, and the Deputy Amildar informed of the same for his statistical purposes. This disposes of items 1 and 7.

6. Items 3 and 9. There are special rules as regards the payments to Hobli School Masters and the Police. They should be adhered to. Attention is drawn to Government Proceedings No. 2343-52—J. F. 443-92, dated 11th August 1893, *in re* payment of Police establishment at out-stations.

7. Item 6. Payment of pension allowances should be made in the Taluk Treasury as per rules on the subject. It is believed that pensioners' rolls are preserved in the Taluk and not Sub-taluk office.

8. Items 8. The potgi of village servants has been ordered by Government to be paid in the Taluk Head-quarters. It is mostly done by adjustments. The Government order on the subject should be adhered to. The Deputy Amildar should keep the Taluk Treasury informed of the deductions to be made from the allowances on account of fines, &c.

9. As regards salaries, Article 63 of the Account Code is plain. The Head of an office who signs the bill is responsible for the distribution of every salary drawn on it. The Deputy Amildar is the Head of the Revenue, Excise, Forest, Maramat, Muzrai, Municipal and District Fund establishments in his sub-taluk, and is the Officer to make the Barawards which should be treated and cashed in the same way as are the pay bills of the Sub-Division Officer and his establishment, the Post Offices, Public Works Department, &c. But it will be necessary to make due and efficient arrangement for the escort of the money from the Taluk Treasury and for its custody till complete disbursement. The amount including the Sub-Division Officer's salary may exceed Rs. 1,000. The task of escorting the money from Channapatna to Closepet will have to be imposed on the Police and so also that of guarding it till disbursed. An iron safe may be kept in the Kasba Police Station, and the key may be with the Deputy Amildar, the safe being looked after by the Police in the station. It will be inconvenient if the gumastas of the office and shekdars of the Sub-Taluk Hoblis and peons should run away to Channapatna to the detriment of their work, especially so, if the Municipal scavengers go away on this plea.

10. The Taluk Treasury Officer will be responsible to see that the vouchers are in proper form and that the accounts drawn on bills are accounted for as per rules in that behalf.

11. As Closepet is the Head-quarters also of the Sub-Division Officer, he will, as frequently as he can, examine the cash and accounts of the Deputy Amildar and satisfy himself that they are correct.

II. Docket No. 468, dated 23rd November 1895, from the Deputy Commissioner, Bangalore District, to the Revenue Secretary to the Government of Mysore.

The Revenue Secretary's No. 4503—R. 1762, dated 8th instant, *anent* the disbursement of the pay of certain establishments of the Closepet sub-taluk by the Deputy Amildar.

Adverting to the above, has the honor to submit copy of Mr. C. Raghavacharlu's Order No. 64, dated 2nd August 1895, and to state that orders are solicited on the following points:—

(1) Whether the monies to be drawn and distributed by the Deputy Amildar may be sent to him from the Taluk Treasury?

(2) The arrangements to be made for escorting the remittance and guarding the undisbursed amount remaining in charge of the Deputy Amildar.

(3) What establishments should be paid by the Deputy Amildar?

III. The following communications from the Deputy Commissioners of other Districts reporting the practice prevailing in the Sub-Taluks of their Districts, in regard to Deputy Amildars drawing and disbursing amounts due on account of pay of establishment, contingencies, &c., in such Taluks.

IV. Letter No. 3766, dated 29th January 1896, from the Comptroller, Mysore Government, to the Revenue Secretary to the Government of Mysore.

With reference to your docket No. 5363—R. 2086, dated 9—12th December 1895, forwarding, for opinion, copies of correspondence between his office and the Deputy Commissioner, Bangalore district, in regard to the practice of disbursing the pay of certain establishments of the Closepet Range by the Deputy Amildar, I have the honor to state that I agree generally with the Deputy Commissioner; only such fixed charges, such as contingencies, pay of Deputy Amildar's establishment, both Revenue and Municipal, need be drawn by the Deputy Amildar and disbursed, and for which he will be held personally responsible.

No. 3831-9—Fl. 360, dated Bangalore, 8th November 1900.

Order thereon—The reports read above show that in most of the sub-taluks, it has been the practice for Deputy Amildars to draw from the Taluk Treasuries only such fixed charges, as contingencies, and pay of sub-taluk establishment, both Revenue and Municipal, and disburse the amount to the persons concerned. In agreeing generally with the Deputy Commissioner, Bangalore district, the Comptroller states that only such fixed charges, as contingencies, pay of Deputy Amildar's establishment, both Revenue and Municipal, need be drawn by the Deputy Amildar and disbursed, he being held personally responsible for the same. The Government concur in the view taken by the Comptroller, who is requested to issue needful instructions to all Deputy Commissioners, with a view to ensure uniformity of practice in all sub-taluks.

Letter D. No. 774, dated 12th November 1900, from the Deputy Commissioner, Bangalore district, submitting, with reference to Government Order No 3489-90—R. 1138, dated 27th October 1900, a statement showing the names of the 302 weavers relieved from the 30th September up to 3rd November 1900 and soliciting sanction to a further advance of Rs. 5,000 on the ground that the total value of the articles bought amounts to Rs. 11,286-8-0, while the sum advanced for the purpose is Rs. 10,000, and that deducting the value of the articles sold, *viz.*, Rs 1,222-6-6, the balance of Rs. 64-1-6 as well as the value of the articles bought since the 3rd November up to 12th November 1900, *viz.*, Rs. 2,807-10-7, have been paid from Municipal money.

No. 4069-70—Fl. 391, DATED BANGALORE, 19TH NOVEMBER 1900.

ORDER THEREON—The further advance of Rs. 5,000, applied for by the Deputy Commissioner, is sanctioned, subject to punctual submission of weekly progress reports. There does not seem to be any uniform standard adopted regarding the number of cloths bought from each. The purchase being effected to afford relief to the weaving laborer and not to the capitalist, care should be taken to ascertain that the article bought is the produce of the laborer's manual labor. The price offered must, after deducting the cost of the material, leave the weaver a sufficient margin for his wages, calculated on the principles of the Famine Code and regulated by the current price of the food grain. This must be the general method of dealing with and distributing this kind of relief, and the local officer is of course expected to exercise his sound discretion so as not to refuse relief in a deserving case while he should not allow men of means and capital to turn this opportunity to drive a trade to their own benefit. The measure should be stopped as soon as the present scarcity and the dearness of grain disappear. The Deputy Commissioner will report, for the information of Government, the variations of price during which this measure of relief was allowed to continue during the last distress in 1891-92. Effort should also be made from time to time to sell to advantage the cloths which are bought from these weavers.

READ—

Letter No. 254, dated 7th September 1900, from the Deputy Commissioner, Mysore district, reporting that he proposes to give effect to the above order from 10th September 1900, that he has intimated the date to the Comptroller, and that subject to confirmation by Government, he has made the following appointments for filling up the vacancy caused by the retirement of Lakshman Rao:—

(a) M. Padmanabha Rao, Revenue Head Munshi, Deputy Commissioner's office, pay Rs. 60, to be Treasurer, Mysore District Treasury, on Rs. 100, *vice* Lakshman Rao, retired, subject to the former furnishing the prescribed security.

(b) H. Krishnappa, Revenue Deputy Accountant, District office, pay Rs. 50, to be Revenue Head Munshi on Rs. 60, *vice* Padmanabha Rao.

(c) B. Mallikarjunaiya, Revenue 3rd Accountant, Deputy Commissioner's office, pay Rs. 40, and now acting as Judicial Head Munshi in the same office, to be Revenue Deputy Accountant on Rs. 50, *vice* Krishnappa.

2. Correspondence ending with letter No. 346, dated 8th October 1900, from the same officer, stating that Padmanabha Rao has qualified himself for being entertained in

the Treasury Branch by passing the Local Service Accountant's Test, and also gained practical experience in the Account Branch, having been Deputy Accountant of his office for nearly four years, and that his nomination as Treasurer, Mysore District Treasury, may be approved by Government.

No. 4186-7—Fl. 406, DATED BANGALORE, 23RD NOVEMBER 1900.

ORDER THEREON—Under the circumstances reported, the Deputy Commissioner's proposals are approved. Padmanabha Rao will be appointed on probation, subject to confirmation after one year's approved service, the required security being furnished at once.

EXCISE

Proceedings of the Government of Mysore,

READ—

Letter No. 2170—104, dated the 19th September 1900, from the Excise Commissioner in Mysore, reporting upon the sale results of the toddy shops in the several districts of the State for the year 1900-1901.

ALSO—

Letter No. 2418—120, dated the 20—24th October 1900, from the same Officer, stating, with reference to this office No. 3205—Ex. F. 3-99, dated the 17th October 1900, that the detailed statement referred to in the above letter will be completed and submitted as soon as the information regarding certain security deposits, which is still wanting, is received from the Deputy Commissioners concerned.

No. 3867-8—Ex. F. 3-99, DATED BANGALORE, 12TH NOVEMBER 1900.

ORDER THEREON—From the abstract appended in the margin it will be seen that there was a net increase of Rs. 2,31,590 over the previous year's rental. The increase was general in all the districts, the highest, *viz.*, Rs. 48,813, being in the Chitaldrug district, and is reported to be due to (1) the better appreciation of the tree-tax system and of the value of each shop by the professional men, who deal in toddy; (2) the suppression of illicit tapping to a large extent; and (3) the comparative cheapness of toddy compared with arrack. It is satisfactory to note that the rise in revenue is due to reduced consumption of toddy as will be seen from the following statistics :—

2. Considering the short period of two years during which the tree-tax system has been in force, and considering also the unfavorable conditions of the

year owing to plague, Government consider the increase of Rs. 2,31,590 over the rentals of the previous year, a satisfactory result of the working of the new system of toddy administration.

3. The detailed statement of the sales of toddy shops, promised by the Excise Commissioner in the 2nd letter read above, is awaited.

Letter No. 2171—105, dated the 20th September 1900, from the Excise Commissioner in Mysore, submitting a brief report on the results of the sales of arrack vend farms and separate shops in all the districts of the State for the year 1900-1901.

2. Also letter No. 2419—121, dated 20—27th October 1900, from the same officer, stating, with reference to this office No. 3206—Ex. F. 4-99, dated the 17th October 1900, that the detailed statement of the results of the sales referred to in the above letter, will be forwarded as soon as certain information regarding security deposits, which is still wanting, is received from the Deputy Commissioners concerned.

No 4100-1—Ex. F. 4-99, DATED BANGALORE, 20TH NOVEMBER 1900.

ORDER THEREON—It is seen from the abstract appended that there was a net increase of Rs. 45,107 over the previous year's rental both under "Arrack Vend Farms" and "Separate Shops." The increase under separate shops was general in all the tracts except in the Mysore City and the Hassan and Chikmagalur towns, where there was a small decrease which is attributed to the heavy losses sustained by the shop-keepers of the previous year. The marked increase of Rs. 35,980 which occurred in the Kolar Gold Fields alone is reported to be due to keen competition among the bidders in anticipation of a better season with the close of the year "Vikari," as well as to the continued influx of laboring classes to the Gold Fields. A small increase occurred under "Vend Farms" in all the districts except Bangalore, Hassan and Kadur, where a small increase attributable to the experience gained by the reverses of previous year, owing to the unfavorable season and the consequent high prices of food grains as also to the depression of the coffee industry.

2. Government note with satisfaction that the statistics of consumption given in the margin show that an increase of revenue has been secured with decrease in consumption.

Petition No. 93, dated 3rd July 1895, presented by Mallegauda and other raiyats of Sarvamanya Kudlur village in the Channapatna taluk, complaining of the attempts made by the vrittidars to deprive them of their gulpal lak, of oppressive legal proceedings instituted against them, and of the necessary revenue accounts not being kept by the vrittidars.

2. Letter No' 659, dated 20th October 1900, from the Deputy Commissioner, Bangalore district, submitting the statements of Mallegauda and others of the Kudlur village, given before the Amildar, to the effect that they never submitted any petition to Government in the matter, and requesting that the alleged complaint might be struck off the file.

No. 3869-76—Pet. 639, DATED BANGALORE, 12TH NOVEMBER 1900.

ORDER THEREON—Recorded with the observation that the delay of five years in submitting this report ought to have been avoided by the Deputy Commissioner.

Letter No. 1873—543, dated 19th February 1888, from the Deputy Commissioner, Kolar district, reporting that the representatives of no less than 8 out of the 12 vrittidars of the said agrahar did not reside in the village of Karadagur, and recommending that the vrittis owned by them may be treated as personal inam subject to half quit-rent.

2. Letter No. 1277—208, dated 11th October 1900, from the same, reporting further, in reply to this office docket No. 389—P. 61, dated 11th July 1893, to the effect that 9 vrittidars or enjoyers thereof reside in the village; that Narasimhachari and Garudachari own houses and live in the villages but frequently absent themselves; that Sagarada Narasimhachari, who owns ¾th vritti, states that it is not incumbent on him to reside in the village as the remaining ¼th-vritti-holders reside there, and that he would reside also in the village if required; that Ramachari and Anantachari prayed for some time to enable them to take up their abode in the village; and that the other vrittidars, Saraswathi Bayi (¼th vrittidar), Narayana Rao, Bhimakka and Subbannachar, who do not reside in the village, failed to appear to explain their conduct though notices were served upon them.

No. 3907-14—P. F. 15-1900, DATED BANGALORE, 13TH NOVEMBER 1900.

ORDER THEREON—There has been a long delay of four years and three months in the submission of the last report by the Deputy Commissioner.

2. The terms of the grant should be strictly enforced and the vrittidars should be compelled to reside within the limits of Karadagur village. If representatives of more than half a vritti live in the village, the others of the same vritti may perhaps be given freedom to remain elsewhere, if such concession is not inconsistent with the original grant. Those who are not residing in the

village must be warned to do so. Temporary absence elsewhere may be excused if they keep a house in Karadagur. Those defaulting and persisting in such default will render their vrittis liable to be resumed, and the Deputy Commissioner may hold such vrittis under attachment till such defaulters provide themselves with houses in Karadagur and reside in them. A further report in this matter should be submitted in due course.

(1) Petition of Appeal No. 564, dated 5th September 1898, presented by Nanja Reddi of Munnekolala village, Bangalore taluk, against the order of the Deputy Commissioner, Bangalore district, holding that the course of the irrigation channel in its passage through Survey No. 231 of the village should be to the south of the said number.

(2) Letter No. 23, dated 8th July 1899, from the Deputy Commissioner, Bangalore district, reporting on the above petition.

(3) Letter No. 155, dated 30th August 1899, from the Superintendent of Revenue Survey, submitting his opinion in the matter.

(4) The records of the case and the village map.

The facts of the case are briefly as follows :—

1. The irrigation channel in question is shown in the village map as running to the north of Survey No. 219 and then to the north-east of Survey No. 233. The land belonging to the appellant, Survey No. 231, which is also classed as wet land, lies between these two numbers, but the Survey Department have not marked out in the village map the direction of the channel near this land. The appellant contends that the channel should be traced out to the north of his holding (Survey No. 231) in continuation of the tracing marked in the village map for the irrigation of the above two numbers, and states that he would sustain great loss, if the channel be diverted to the south of his land as desired by the other wet land-holders, as he cultivates sugar-cane on this portion of his land. The counter-petitioners, who also hold wet lands below the tank, contend that the channel should be traced out to the south of Survey No. 231 on the ground that the northern portion of this land being on a high level, their lands will not be irrigated if the channel be diverted towards this side as desired by the appellant.

2. The village map does not show the channel between Survey Nos. 219 and 233, and the Survey Superintendent in his letter No. 155, dated 30th August 1899, reports that the channel shown to the north of Survey No. 209 and ending abruptly at the west end of Survey No. 231, and the channel shown to the north of Survey Nos. 233 and 235 appear to him to be two different channels; that none of the various claimants appear to him to have a right to the channel being continued to the north of Survey No. 231 or to the south of that number; and that their right was restricted to a supply of water for irrigating their lands.

3. The local authorities have all proceeded on the assumption that the two channels shown in the map are parts of one and the same channel with an interruption between Survey Nos. 219 and 233 which had to be traced.

4. Amildar B. Nagesha Rao, who first enquired into the matter in May 1894, passed an order stating that the channel should be traced in the southern portion of Survey No. 231, as kharab to the extent of four guntas had been deducted in it for channel, &c. The measurer when proceeding to mark out the course found that there were no data for marking the course and applied for instructions, to the Amildar. The latter, in a subsequent order to the shekdar, states that he had cleared up the difficulty of the measurer by reference to the Survey records and that the exact course had been pointed out to him.

5. When the matter came up in appeal in 1895-96, before the Assistant Commissioner in charge of the taluk (Mr. Chandy), he inspected the locality and directed that the course should be marked out to the north of Survey No. 231, his reasons apparently being (1) that if the channel was marked out in the southern part of Survey No. 231, the land would be rendered useless for cultivation, and (2) that it was apparent from the local inspection made that the course lay in the northern part of Survey No. 231.

6. When the matter was carried in 2nd appeal before the Deputy Commissioner (Mr. V. N. Narasimmaiengar), he reversed the order of Mr. Chandy on the report of the Acting Asi. ar Ranga Rao. Mr. Narasimmaiengar does not appear to have inspected the spot himself. After the above order was passed, Badami Krishna Rao, who was then the Amildar, sought for a revision of the order on the ground that the course as traced out under the order of Mr. Chandy was correct. Mr. B. K. Venkatavaradaiengar, who had succeeded Mr. Narasimmaiengar, declined to re-open the case. Mr. Puttanna Chetty, who succeeded Mr. Venkatavaradaiengar, is of opinion that Mr. Narasimmaiengar's order is correct.

7. The Survey Superintendent, in his letter referred to above, says that "to trace out, as the petitioner and counter-petitioners put it, a channel, would be to favor one or more of the parties concerned at the expence of the other."

No. 4238-46—P. F. 11-1900, DATED BANGALORE, 26TH NOVEMBER 1900.

ORDER THEREON—It will be satisfactory if this land is inspected by the Deputy Commissioner in the presence of the parties and a fresh decision arrived at after hearing the parties and holding a local investigation on the spot. Mr. Chandy and B. Krishna Rao are of one opinion, while Ranga Rao and Nagesha Rao are of another. The Survey records do not throw much light, and the Survey Superintendent seems to think that the owners of Survey Nos. 233, &c., are entitled to water without locating the channel. It is said that if the channel is in the south, the owner of Survey No. 231 (appellant) suffers, while if it is in the north, the holders lower down are said to experience difficulty in getting water. The lay of the land seems to favor the location of the channel in the south for the owners of Nos. 233, &c., while difficulty is apprehended for Survey No. 231 if the channel is not in the north. Under all the circumstances of the case, it seems essential that the deciding authority should himself see the land and come to a settlement convenient to all parties. The case will, therefore, be remanded to the Deputy Commissioner, who will deal with the case in accordance with the foregoing remarks.

L. ANANTASAMI RAO,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioner, Bangalore District, with records, petition, &c.
The Superintendent of Revenue Survey in Mysore.
